PROFESSIONAL SUMMARY

Results-oriented Data Professional with a diverse array of professional experience. Leveraging robust skill sets in data analysis, executive leadership, and customer service to develop valuable insights that inform improved performance and communication.

SKILLS

- Python (Numpy, Pandas, Matplotlib)
- SQL
- Tableau/Power BI
- Systems Integration Software
- Customer Service
- Executive Leadership

EXPERIENCE

Ategrity Specialty Insurance Company

Burlington, VT (Remote)

Transformation Analyst

August 2024 - April 2025

- Led integration of AI-driven document data between Nanonets and Zendesk to support accelerated turnaround in various Insurance Life Cycle Processes, resulting in a 20% reduction in processing completion times and enhanced competitiveness in the industry
- Conducted iterative, comprehensive data analysis in Power BI to examine accuracy of Risk Group Identification in Nanonets, resulting in an identification accuracy rate of over 99% and enhanced system integration performance

New York State Division of Budget, Health Unit

Albany, NY

Budget Examiner Fellow

June 2023 - June 2024

- Used Excel and Tableau to analyze public health insurance enrollment and spending data during the post-pandemic Medicaid Unwind, supporting a 30% reduction in forecast error compared to Kaiser Foundation Projection Performance in New York State
- Assisted with the tracking of Appropriations Bills under Article VII of the NYS Constitution, resulting in greater efficiency in the identification of the approval status of the respective bills and supporting the \$50M savings executed in the NYS FY2025 Budget

Binghamton University Snocats Skiing and Snowboarding

Binghamton, NY

President

April 2020 - June 2023

- Utilized Excel to carefully allocate budget and delegate management of emergency vouchers, resulting in the maintenance of over 65% participation through the COVID-19 Pandemic and post-pandemic participation growth of 35% versus pre-pandemic levels
- Successfully acquired two successive budget allocation increases for the 2022-23 and 2023-24 Academic Years, citing inflation and growth of interest from students, resulting in an increase from \$3,900 to \$10,000 (156%) in yearly allocation during tenure

Movement Labs

Binghamton, NY (Remote)

Data Analyst Intern

January 2023 - May 2023

- Leveraged data analytics skills to support candidate outreach through battleground election analysis, supporting a 30% increase in candidate recruitment outreach during tenure in districts with uncontested incumbents
- Managed operations of a slack-based server to support volunteers, contributing to a 15% improvement in volunteer satisfaction

PROJECTS

Bridge to Enter Advanced Mathematics Student Research Analysis

Albany, NY (Remote)

Data Analytics Team Member

June 2023

- Analyzed student performance data and presented findings on key indicators of improved performance, supporting a 15% improvement in student outcomes as well as feedback on additional necessary data to support continued future improvements

Relational PL/SQL Student Database

Binghamton, NY

Software Lead

September 2022 - November 2022

- Created a student database model through the development of structures in PL/SQL, resulting in expanded programming abilities and the production of insights to inform more efficient and seamless operations for student registration

EDUCATION

Binghamton University, State University of New York

Binghamton, NY

Master of Science in Data Analytics

Graduated August 2023

Cumulative GPA: 3.64/4.00

Bachelor of Arts in Mathematical Sciences
