

Mohammed Mansoor Shareef

Java Full Stack Developer

Boca Raton, FL | mohammedmansoorshareef218@gmail.com | (786) 984-2357

PROFESSIONAL SUMMARY

A Java Full Stack Developer with **5+ years** of experience in designing and implementing scalable web applications. Proficient in front-end and back-end technologies including **Java, Spring Boot, ReactJS, Angular**, and **RESTful APIs**. Skilled in developing microservices architecture, integrating databases like **MySQL** and **MongoDB**, and deploying applications on **AWS** and **Azure**.

TECHNICAL SKILLS

Methodology: SDLC, Agile.

Languages: Core Java, Java 8, Java 11, Java 17, SQL, C++, C#, Python.

Frameworks/Libraries: Spring MVC, Hibernate, ReactJS, Angular, Spring Boot, SOAP, Microservices, Spring Security, API Gateway, Node.js.

IDEs: NetBeans, IntelliJ IDE, Eclipse, Xcode, Visual Studio Code.

J2EE Technologies: Servlets, JSP, JavaBeans, JDBC.

Web Technologies: HTML, CSS, Bootstrap, JavaScript, TypeScript, jQuery, Ajax, JSON, XML, GraphQL.

Application Server: Apache Tomcat, AWS, Azure, GCP.

Databases: MySQL, Oracle, DB2, PL/SQL, SQL Server, PostgreSQL, NoSQL.

Build /Other tools: MS Visio, Maven, Gradle, Junit & Mockito, Cucumber, Jenkins, Docker, Kubernetes, Kafka, Kibana, Terraform, SonarQube, Postman, Swagger, Splunk, Spark, Redis, Service Now.

Version Control Tools: Git, GitHub, Git Bash, GitLab, Jira, BitBucket.

PROFESSIONAL EXPERIENCE

Amazon | FL | Java Full Stack Developer

December 2023 – Present

- Leveraged **Spring Boot** for scalable **microservices** and utilized **AOP** to modularize cross-cutting concerns, enhancing performance and reducing code redundancy by **30%**.
- Employed **Java 17** for backend logic and **MySQL** for database management, optimizing queries to reduce application load time by **30%** and enhance data retrieval efficiency.
- Applied **AWS S3** for scalable object storage, **EBS** for high-performance block storage, and **Glacier** for cost-effective long-term data archiving, optimizing data management and reducing costs by **35%**.
- Implemented **RESTful APIs** and integrated **Kafka**, achieving a **35%** improvement in real-time data processing and communication efficiency across **microservices**.
- Developed scalable web applications using **J2EE technologies**, boosting performance by **25%** through optimized **JSP** for dynamic content generation and **JDBC** for efficient database connectivity and transaction management.
- Established dynamic user interfaces using **ReactJS**, **CSS**, and **JavaScript**, enhancing application responsiveness and user engagement.

Tata Consultancy Services | India | Java Full Stack Developer

July 2021 – December 2022

- Increased code efficiency by **25%** using **Java 11's JShell** to iteratively test and refine algorithms, streamlining development and reducing debugging time.
- Designed responsive web applications using **Angular**, **HTML**, **CSS**, **Bootstrap**, and **JavaScript**, improving user experience and interface performance by **40%**.
- Established **OAuth 2.0** with **Spring Security**, which increased application security by **40%** with strong authentication and authorization, ensuring safe **API** access and smooth user management.
- Implemented **Spring MVC** for efficient web application development and integrated **Spring Security** to enhance authentication and authorization, improving system security by **25%**.
- Optimized cloud infrastructure by **40%** using **AWS EC2**, **Lambda**, and **ECS** to deploy scalable applications, automate workloads, and enhance performance with minimal latency.

Cognizant | India | Junior Java Full Stack Developer

November 2018 - June 2021

- Applied **JUnit** and **Test-Driven Development (TDD)** practices to ensure high code quality and reliability, reducing bug occurrence by **40%** and accelerating development cycles.
- Utilized **Java 8** features like lambdas and streams to enhance code readability and performance, reducing development time by **25%**.
- Implemented **JWT** authentication for secure, stateless user sessions, **enhancing system security**, reducing server load by **30%**, and ensuring seamless scalability across **microservices**.
- Managed cloud infrastructure on **Azure**, optimizing resource deployment and scaling, resulting in a **30%** reduction in operational costs and improved system performance.
- Streamlined development workflows by implementing **CI/CD** pipelines with **Jenkins**, reducing deployment time by **50%** and increasing code quality through automated testing.
- Created and optimized complex queries in **SQL** and **PostgreSQL**, enhancing data retrieval speed by **35%** and improving database performance for large-scale applications.

EDUCATION

Master's in Computer Science,

Florida Atlantic University, Boca Raton, FL, USA.

Bachelors in Computer Science,

Aurora Technological & Research Institute, Hyderabad, India.
