GCP Quality Assurance • Compliance Oversight • TMF SME • ALCOA+ • Inspection Readiness & Audit Preparedness

Clinical Professional with 9+ years of experience overseeing compliance, data integrity, and quality performance across global clinical trials. Expert in transforming complex compliance data into actionable dashboards, risk trends, and leadership-ready insights. Skilled in ALCOA+ document reviews, TMF governance, and proactive risk monitoring using quantitative and qualitative metrics. Demonstrated ability to partner cross-functionally with Clinical, Regulatory, and Data Management teams to remediate gaps, prevent recurrence, and improve inspection readiness. Known for continuous improvement mindset, data-driven decision-making, and ability to translate quality risks into clear business actions.

CORE COMPETENCIES

- **Quality Systems Management** – Deviations, CAPA management, change control, training & qualification, document control
- **Process Improvement:** Workflow optimization, SOP/Index/EDL updates, change requests, reconciliation/archival, root cause analysis, GCP (ALCOA+)
- **Tools & Systems:** Smartsheet, PowerPoint, Veeva Vault, SharePoint
- **Data Analysis & Reporting:**
 - Trend Analysis & Predictive Risk Monitoring
 - KPI Development & Governance
 - Dashboard Design (Power BI / Excel / Smartsheet Portfolio Reporting)
 - Compliance Metrics Standardization
 - Data Visualization for Leadership

PROFESSIONAL EXPERIENCE

▼ IOVIA | Remote

April 2021 - Current

TMF Quality Project Manager

- Monitored quality and compliance across multiple global trials using risk-based metrics, dashboards, and trend analysis.
- Reviewed essential documents for ALCOA+ compliance, identified discrepancies, and ensured timely remediation with functional leads.
- Tracked, analyzed, and presented compliance trends to leadership to inform decision-making and risk mitigation strategies.
- Managed and maintained 10+ compliance dashboards and monthly reports to provide real-time visibility into inspection readiness.
- Support and prepare teams for Health Authority inspections and corporate audits, including mock inspections, document readiness, and inspection response coordination
- Identified documentation gaps, documented observations, and coordinated corrective actions with study teams through verified closure.
- Leveraged SQL queries to retrieve and validate compliance data used for leadership metrics, risk assessments, and inspection readiness reporting.

▼ PPD | WILMINGTON, NC

Clinical Trial Coordinator (Dec 2019 - April 2021)

May 2017 - April 2021

- Ensured 100% audit-ready documentation by conducting essential document compliance reviews, metadata reviews, and compliance reconciliations, identifying discrepancies and driving remediation plans.
- Administered Veeva Vault eTMF, ensuring accurate document indexing, metadata quality, and user permissions across global clinical trials.
- Supported TMF system change control activities by conducting impact assessments, validation testing, and post-release reviews in compliance with FDA 21 CFR Part 11.
- Mentored junior quality professionals and vendors, serving as a subject matter resource for audit preparation, filing compliance, and inspection conduct
- Conducted root-cause analysis for escalated documentation discrepancies and implemented process improvements that reduced repeat issues by 25%.

Records Management Associate (Dec 2017 - Dec 2019)

- Oversaw data collection workflows, tracked discrepancies, and ensured timely resolution with sites and sponsors.
- Performed routine quality reviews of study documentation to ensure accuracy, completeness, and regulatory compliance.
- Coordinated communication between sites, sponsors, and internal teams to resolve quality issues efficiently.
- Maintained structured, inspection-ready regulatory binders and TMF records in Veeva Vault.
- Assisted with budget tracking, invoice processing, and reconciliation in collaboration with finance and sponsors.

Records Management Specialist (May 2017 - Dec 2017)

- Assisted with budget tracking, invoice processing, and reconciliation in collaboration with finance and sponsors confirmed scope.
- Tracked document lifecycle status escalating trends and risks to study leadership when milestones were at risk.
- Managed TMF milestones, reconciliation, and archival activities in accordance with the DIA TMF Reference Model and regulatory timelines.

VERIZON WIRELESS | WILMINGTON, NC

Customer Experience Specialist

March 2012 - May 2017

- Analyzed high-volume customer and operational data to identify trends, systemic issues, and process gaps, recommending corrective and preventive actions to leadership.
- Developed and maintained performance reports and dashboards that enabled leadership to monitor quality, risk, and service trends in real time.
- Monitored operational quality trends, proactively flagging systemic issues to management and recommending process improvements
- Conducted root-cause investigations on escalated cases, recommending and implementing corrective actions that reduced recurring errors and customer complaints.
