WORK EXPERIENCE

Apple

USA

Data Analyst

Jun 2024 - Present

- Analyzed and visualized complex datasets using Python libraries such as Pandas and Matplotlib, leading to the identification of key performance trends that resulted in a 25% improvement in operational efficiency over six months.
- Optimized project management methodologies by implementing Agile and Scrum practices across a team of 10 analysts, leading to a 30% reduction in project delivery time while increasing stakeholder satisfaction scores by 25%.
- Engineered scalable cloud escalated solutions on AWS, leveraging services such as DynamoDB and Redshift to manage datasets exceeding 10 terabytes, which enhanced system performance by reducing query execution times by up to 50%.
- Developed interactive Tableau dashboards that improved data visualization efficiency by 40%, enabling stakeholders to make informed decisions based on real-time insights from over 5 million data points.

IBM

India

Data Analyst

Jan 2021 - Jul 2022

- Conducted comprehensive data analysis using Python and SQL on over 1 million records, enhancing data quality through rigorous validation processes that improved accuracy metrics by 25% while streamlining reporting efforts via automated data visualization tools such as Power BI.
- Streamlined data collection processes using automated ETL pipelines, reducing manual entry time by 60% and improving overall data quality for analysis of trends from a database containing over 200,000 records.
- Conducted comprehensive training sessions for staff on Power BI functionalities, leading to a 60% increase in user adoption rates and empowering teams to independently generate insights from their datasets.
- Analyzed and interpreted complex datasets from over 1 million customer interactions, leading to the identification of key trends that improved customer retention rates by 15% within a six-month period.

Salesforce

India

Data Analyst

Jan 2019 - Dec 2020

- Optimized data cleaning processes using Python libraries such as Pandas and NumPy, improving data quality metrics by 35% while processing datasets exceeding 1 million records for advanced statistical analysis.
- Streamlined ETL processes with advanced tools like Alteryx and SSIS, achieving a 30% increase in data processing speed while maintaining a data quality score above 95%, enabling real-time analytics for strategic decision-making.
- Conducted comprehensive exploratory data analysis on over 2 million records, identifying key trends that informed strategic decision-making and contributed to a revenue uplift of \$500K in the fiscal year.

EDUCATION

University of Texas at Arlington

Arlington TX

Master's in Information Systems

Graduation Date: May 2024

Pune University

Pune, IN

Bachelor of Engineering in Computer Engineering

Graduation Date: May 2020

SKILLS

Methodologies: • SDLC, Agile/ Scrum, Waterfall, Project Management

Language: • Python, SQL, R, PySpark, HTML, CSS

PythonLibraries: • Pandas, NumPy, Matplotlib, SciPy, Scikit-Learn, SeaBorn, PyTorch

Data Analytics Skills : • Data Collection, Data Cleaning, Data Mining, Data Visualization, Statistical Analysis, Data Warehousing, Data Wrangling, Exploratory Data Analysis, Database Management, Data Validation, Data Quality, Process Optimization

DataVisualizationTools: • Tableau, Microsoft , QlikView, Looker, QuickSight

Databases: • : Microsoft SQL Server, MySQL, MongoDB, Oracle RDBMS, PostgreSQL, DB2

Tools: • SSIS, Alteryx, Talend, Microsoft office Suite, SSRS, GitHub, Looker, Power Query

Cloud : • AWS (Lambda, EC2, SNS, DynamoDB, RDS, S3, Cloud Watch, Athena, Redshift, SQS, Elastic load), GCP

Computing (BigQuery, Data Studio, Dataflow), Snowflake, Azure (ADF, Blob storage, Synapse Analytics, Databricks)

SoftSkills: • Problem-solving, Clear Communication, Critical thinking, Strategic Thinking, Team Support, Time Management
