PROFESSIONAL SUMMARY

- **Business Data Analyst** with 4+ years of experience converting operational data into **Dashboards, Scorecards**, and insights that improve performance and accountability.
- Strong in **SQL, Excel, Power BI**, and **Tableau** for data aggregation, modeling, **KPI Design**, and executive-ready reporting across multi-site operations.
- Experienced in **Trend, Variance**, and **Root-Cause Analysis**, translating findings into actionable business recommendations and follow-up actions.
- Collaborative partner with cross-functional teams (**Operations, Finance, HR**, Leadership) using data storytelling to support decision-making.

CORE SKILLS

SQL Query Development | Advanced Excel (Power Query, PivotTables) | Power BI | Tableau
Dashboard & Scorecard Development | KPI & Metrics Definition | Trend & Variance Analysis
Root-Cause Analysis | Data Cleaning & Validation | Data Quality Monitoring
Business Performance Reporting | Executive Presentations | Stakeholder Communication
Cross-Functional Collaboration | Process Improvement | Documentation
AI-Assisted Analytics (Exposure) | Generative AI for Insight Summaries | Attention to Detail

PROFESSIONAL EXPERIENCE

Business Data Analyst – Operations & Performance Analytics

Startech Networks, Plano, TX

Jun 2025 – Present

- Consolidate, clean, and validate **operational datasets** from multiple systems to improve reporting accuracy.
- Design and maintain **Power BI / Tableau Dashboards** and monthly **KPI Scorecards** tracking trends, variances, and site performance.
- Use **SQL** and **Excel** to build datasets, perform **Trend Analysis**, and identify performance drivers.
- Conduct **Root-Cause** and **Variance Analysis** on KPI deviations and present insights with recommended corrective actions.
- Monitor **KPI Movement**, detect anomalies, and document findings and follow-ups to support accountability.
- Maintain documentation, **Metric Definitions**, and **Data Quality Rules** to standardize analytics processes.
- Partner with **Operations, Finance, HR**, and **Risk** to convert business questions into measurable **KPIs**.

Environment: Power BI, Tableau, SQL, Excel (Advanced), PowerPoint, SharePoint, JIRA, Confluence

Business Data Analyst / BI Analyst

Heera Moti, New York, NY

Jan 2024 – Jun 2025

- Built automated **Dashboards** and recurring **KPI Reports** improving visibility into operational performance.
- Gathered reporting requirements, defined **KPI Logic**, and implemented **Validation Checks** to ensure data accuracy across reports.
- Developed **SQL Queries** and **Excel Data Models** to clean, aggregate, and standardize datasets for analytics.
- Performed **Trend, Variance**, and **Cohort Analysis** to identify anomalies, performance shifts, and improvement opportunities.
- Delivered actionable **Insight Summaries** and visual narratives supporting strategic and operational decisions.
- Supported **Issue Tracking** and **Action Monitoring**, helping leadership track progress on improvement.

Environment: SQL, Power BI, Tableau, Excel, SharePoint, Confluence, JIRA

Data Analyst Intern

MeriSkill, Remote

Nov 2023 – Jan 2024

- Assisted with **Data Collection**, validation, and preparation for recurring dashboards and analytics requests using **SQL** and **Excel**.
- Built and updated **Power BI / Tableau Visualizations** to performance trends and key business metrics.
- Performed **Data Quality Checks**, resolved discrepancies, and ensured accuracy of recurring reporting outputs.
- Documented **Metric Logic**, data sources, and reporting assumptions to support consistent interpretation across teams.

Environment: SQL, Excel, Power BI, Tableau, PowerPoint

Associate Business Analyst (Data-Focused)

IndiaJoy, Hyderabad, India

Apr 2022 – Jan 2023

- Supported **KPI Reporting** and operational performance monitoring for internal process improvement.
- Analyzed datasets to identify **Performance Drivers**, seasonality trends, and improvement opportunities.
- Validated recurring reports, investigated anomalies, and coordinated resolutions with business stakeholders.
- Helped standardize reporting templates, dashboards, and **Metric Definitions** to improve consistency.

Environment: Excel, Google Sheets, PowerPoint, Word, SQL (Exposure), Tableau (Exposure)

EDUCATION

Master of Science in Business Analytics

Kent State University

Jan 2023 – May 2024

GPA: 3.8 / 4.0

CERTIFICATIONS

- Accenture: Data Analytics & Visualization Virtual Experience
- Coursera: Databases and SQL for Data Science with Python
- TATA: Empowering Business with Effective Insights
- Introduction to Deep Learning in Python
- Introduction to TensorFlow in Python
