PROFESSIONAL SUMMARY

Healthcare data-focused professional with a **Master's degree in Cell & Molecular Biology** and a **Bachelor of Dental Surgery**, bringing a strong foundation in healthcare domain knowledge, research data analysis, and statistical methods. Experienced in working with **clinical and biomedical datasets**, performing exploratory data analysis, statistical modeling, and data interpretation. Proficient in **Excel, SQL (basic), and Python (basic)** with hands-on academic projects in healthcare analytics. Recently upskilled and fully prepared to re-enter the workforce after a planned career break for family responsibilities. Highly motivated to contribute as a **Healthcare Data Analyst**, supporting data-driven decision-making in healthcare and life sciences.

CORE SKILLS

- Healthcare & Clinical Data Analysis
 - Data Cleaning, Validation & Quality Checks
 - Exploratory Data Analysis (EDA)
 - Statistical Analysis & Interpretation
 - SQL Queries (SELECT, JOIN, GROUP BY)
 - Python for Data Analysis (pandas, numpy – basic)
 - Excel (Pivot Tables, Functions, Reporting)
 - Clinical & Biomedical Domain Knowledge
-

EDUCATION

Illinois Institute of Technology, Chicago

M.S. Cell & Molecular Biology | 2019 – 2021 | GPA: 4.0

D Y Patil University – School of Dentistry

Bachelor of Dental Surgery (BDS) | 2010 – 2015 | GPA: 3.4

RESEARCH & ANALYTICS EXPERIENCE

Graduate Research Student

Pritzker's Biology Research Lab – Illinois Institute of Technology | Aug 2019 – Dec 2021

- Collected, organized, and analyzed experimental and clinical-research data following defined protocols
- Performed quantitative data analysis and interpretation to evaluate experimental outcomes
- Maintained structured datasets, documentation, and research records ensuring data accuracy and consistency
- Collaborated with principal investigators to interpret results and support data-driven conclusions
- Mentored junior graduate students on data recording, documentation standards, and analysis workflows

Graduate Research Assistant

Illinois Institute of Technology – Dr. Orgel | Jan 2020 – May 2020

- Analyzed experimental data from tissue-based studies to support biomedical research objectives
- Assisted with data recording, basic statistical analysis, and preparation of summary findings
- Ensured data integrity, reproducibility, and compliance with research documentation standards

Associate Dentist

Shiva Dental Care | Sep 2015 – May 2018

- Maintained and analyzed patient records, treatment outcomes, and clinical documentation
- Applied data-driven thinking to treatment planning and patient care decisions
- Ensured accurate data entry, compliance with clinical standards, and patient confidentiality

ACADEMIC PROJECTS (HEALTHCARE DATA & ANALYTICS)

(RELEVANT TO CLINICAL RESEARCH)

- **Breast Cancer Prediction Study:** Data analysis and model evaluation using clinical datasets
- **Diabetes Mellitus Analysis:** Exploratory data analysis and statistical modeling of patient data
- **Cognitive Decline (Alzheimer's) Dataset:** Data synthesis, statistical analysis, and interpretation of clinical research data

TECHNICAL SKILLS

- **Data Analysis Tools:** Excel (Pivot Tables, Lookups), SQL (basic querying), Python (pandas, numpy)
- **Statistics:** ANOVA, regression analysis, descriptive statistics

- **Data Visualization:** Charts, graphs, basic dashboards
 - **Healthcare & Research Data:** Clinical datasets, biomedical research data
-

CAREER BREAK (2021 – 2024)

Planned Family Care & Data Analytics Skill Development

- Took intentional time for family responsibilities and early childhood caregiving
 - Continued engagement with healthcare and analytics through structured learning in SQL, Python, and statistics
 - Strengthened analytical thinking through hands-on academic and personal healthcare data projects
 - Fully available and committed to full-time **Healthcare Data Analyst** roles
-

AWARDS

- **1st Place – Research Poster Day Competition (Graduate MS Category), 2021**
