

Siddhesh Keshav Shinde

Tempe, AZ | +1 4802213505 | sidshinde192@gmail.com | linkedin.com/in/sidshinde | github.com/Sidshinde192

SUMMARY

Software Engineer with 1+ year of experience in Java, C++, Spring Boot, React, and Angular. Strong foundation in scalable APIs, distributed systems, and microservices. Proficient in AWS, DSA, RDBMS, system design, and OS concepts.

EDUCATION

Arizona State University

Master of Science in Information Technology | GPA: 4.00/4.00

January 2024 – December 2025

Tempe, Arizona

Mumbai University - SAKEC

Bachelor of Engineering in Electronics & Telecommunication | GPA: 3.52/4.00

August 2020 – May 2023

Mumbai, India

PROFESSIONAL EXPERIENCE

Software Engineer Intern

November 2022 – November 2023

Q spider. Ltd | Mumbai, India

- Developed backend modules using **Java, Spring Boot, and SOLID principles**, enhancing code readability and maintainability for 100+ student-driven projects through optimized design patterns.
- Partnered with cross-functional teams to architect and **deploy Oracle DBMS-powered systems**, optimizing data flow, improving performance, and maintaining 100% relational integrity across all CRUD operations.
- Engineered high-performance Java services with advanced multithreading and concurrency mechanisms, enabling real-time processing for **10K+ student records with zero data loss**, and seamless scalability.
- Optimized responsive UI components with **React**, improving page load speed and user engagement by 25%.

PROJECTS

Food Fleet: Online food Ordering System [Link](#)

August 2025 – December 2025

- Built a full-stack food ordering platform with **React, Spring Boot, and MongoDB**, supporting seamless real-time user interactions, dynamic menu management, and scalable backend performance under high traffic.
- Integrated Razor Pay payment gateway and implemented **JWT-based authentication** with role-based access control enhancing application security, reliability, and backend scalability across distributed systems.
- Deployed the application on **AWS S3**, leveraging elastic cloud scalability and reducing backend API response time by 35% through optimized REST endpoints, intelligent caching, and asynchronous request handling.
- Implemented microservices** for order, user, and payment modules to enhance backend scalability and maintainability.

Edu Testify: Interactive Exam Portal [Link](#)

March 2025 – May 2025

- Implemented **Spring Security**, enabling secure logins and role-based access for 200+ users across admin and candidate roles, enhancing data security, scalability, and access governance through robust authentication workflows.
- Deployed RESTful APIs using Spring Boot, enhancing backend performance, and reducing API response time by **30%**.
- Built an intuitive **Angular frontend** with a **quiz module**, integrated timers, and instruction pages, improving user engagement and exam **completion rate by 40%** through responsive UI optimization and state management.

Smart Solar Grass Cutter

August 2023 – May 2024

Copyright Registration: L-131238/2023 - <https://www.sakec.ac.in/extc/extc-student-publications/>

- Led a team to develop a solar-powered grass-cutting robot using **Arduino UNO and Embedded C**, **reducing farmers' costs by 40%** through IoT-driven automation, real-time monitoring, and intelligent web-based control.
- Secured copyright** for the project under the **Government of India**, recognizing originality and intellectual property of system.

TECHNICAL SKILLS

- Programming Languages:** Java, Python, C, C++, C#, HTML, CSS, JavaScript, Typescript, React.js, Node.js
- Frameworks:** Spring Boot, JDBC, J2EE, Spring MVC, Hibernate, JSP, Servlets, Apache Tomcat Server
- Data Visualization & Version Controls:** Power BI, Tableau, Git, GitHub, Docker, DevOps, Word, Excel.
- Database and Cloud:** SQL, Oracle DBMS, MongoDB, MySQL, NoSQL, AWS S3, Azure, CI/CD Pipelines.
- Area of expertise:** System Design, Software development, AWS cloud Infrastructure, Algorithms, Machine Learning.
- Interpersonal:** Great communicator, Detail-oriented, Flexible, Problem-solver, Passionate, Team player.

PROFESSIONAL CERTIFICATIONS

- JPMorgan Chase & Co. Software Engineering Job Simulation Certificate September 2025 – October 2025
- Java Full Stack Development January 2023 – November 2023
