

SNEHA GRIAN JOSHUA

(623) 286-9474 | snehagrianjsk@gmail.com | [linkedin.com/in/sneha-grian](https://www.linkedin.com/in/sneha-grian) | Jacksonville, FL

SUMMARY

Graduate student in Information Technology with hands-on experience in full-stack software development, API-driven systems, and cloud-native applications. Proven ability to build AI-powered features, optimize backend microservices, and deliver scalable solutions across enterprise and academic projects.

EDUCATION

Arizona State University | Tempe, USA

January 2024 - December 2025

- Master of Science in Information Technology GPA: 3.81
- **Coursework** - Natural Language Processing, Data Visualization and reporting for IT, Analyzing Big Data, Advanced Big Data Analysis and Artificial Intelligence, Adv DB Management Systems, Info Systems Development, Cloud Architecture

Anna University | Chennai, India

August 2018 - April 2022

Bachelor's in computer science and engineering

GPA: 3.71

SKILLS

- **Programming Languages:** Python, JavaScript, Java, C++ (Basics)
- **Frontend:** HTML, CSS, Bootstrap, React JS, Next JS
- **Frameworks & Libraries:** Spring Boot, Express, TensorFlow, PyTorch, Tailwind
- **Software & Tools:** Jira, SQL, PostgreSQL, Tableau, Power BI, Spark, Linux, Docker, Git, AWS
- **Concepts:** Object-Oriented Design, SDLC, Distributed Systems, Scalability, Agile, Data Structures, Algorithms, DevOps, CI/CD, Cloud Computing
- **Soft Skills:** Stakeholder Communication, Reporting, Decision-Making, Business Acumen, Agility

WORK EXPERIENCE

Software Engineer, FOSSFREAKS Private Limited | Chennai, India

November 2022 - December 2023

- Contributed to 10+ diverse projects by developing and integrating features using React.js, Node.js, and Express, supporting end-to-end application development.
- Built an AI-powered expense recommendation engine using OpenAI APIs, delivering personalized insights and improving user engagement.
- Designed and optimized RESTful APIs to enable reliable data exchange across multiple application modules, reducing latency and improving system stability.
- Collaborated closely with cross-functional teams in an Agile environment, while streamlining backend automation and CI/CD pipelines (GitHub Actions) to improve delivery efficiency by 30%.

Research Intern, EinNel Technologies | Chennai, India

February 2022 - October 2022

- Optimized microservice performance in a distributed Spring Boot backend, reducing API latency by 30% and improving system scalability.
- Implemented asynchronous REST APIs using reactive programming, improving throughput and fault tolerance in backend services.
- Contributed to machine learning-powered automation and resolved critical bugs across the full-stack (React.js, Java, PostgreSQL), reducing backend processing time by 25%.

ACADEMIC PROJECTS

Budgetron - Personal & Group Financial Management Platform

August 2025

- Collaborated with a team to build a React Native + Express.js application for expense tracking, group payments, and financial goal management.
- Enabled collaborative expense sharing, automated bank statement imports, and exportable reports (Excel/PDF), reducing manual tracking effort by 40%.

Cyber bullying Predictive Analysis on Twitter Data | Chennai, India | Team Size: 3

January 2022 - April 2022

- Developed a Random Forest-based classification model to detect harmful content, achieving 72.2% accuracy, supported by scalable data preprocessing pipelines.

TRAINING

Summer Intern, Infoziant Systems Pvt. Ltd | Chennai, India

June 2019 - July 2019

- Trained in Java, gaining foundational knowledge in object-oriented programming, data structures, and application development.

SPI Pvt. Ltd | Chennai, India

April 2018 - May 2018

- Collaborated on developing a frontend website for a new food product launch and managed the customer experience database.

CERTIFICATION

- **JavaScript**, Beginners to Experts Course, Udemy (January 2023)
- **Artificial Intelligence** Virtual program, Udemy (January 2023)
- Certified in **Core Python**, BIX Academy (August 2018)
