SUMMARY

Business Analyst with 4+ years of experience delivering impactful solutions in the financial and technology sectors. Proficient in **Agile/Scrum** and **Waterfall** methodologies, with expertise in **Python**, **SQL**, and **R** for data analysis and process optimization. Skilled in creating **BRDs**, **FRDs**, and **SRS** to translate business needs into technical requirements. Adept at leveraging **Tableau**, **Power BI**, **Microsoft Excel**, and **SAP Analytics Cloud** to develop actionable insights through advanced reporting and dashboards. Experienced in project management tools including **JIRA**, **Confluence**, **MS Project**, and **Smartsheet**, with a strong focus on **cost/benefit analysis**, **GAP analysis**, and **risk analysis** to drive strategic decisions and recognized for **leadership**, **problem-solving**, and **collaboration** skills, consistently delivering projects on time while enhancing operational efficiency and stakeholder satisfaction through effective communication.

SKILLS

Methodologies: SDLC, Agile/Scrum, Waterfall
Languages: Python, R, SQL
Documentation: FRD, BRD, SRS
Project Management Tools: Smartsheet, Microsoft Office, MS Project, Primavera, JIRA, Confluence
BI & Analytics Tools: Alteryx, Tableau, Power BI, Looker, Google Analytics, Microsoft Excel, SAP Analytics Cloud
Analysis Skills: Cost/benefit analysis, Impact analysis, GAP analysis, Risk analysis, SWOT analysis
Tracking/Other Skills: Jira, Microsoft Visio, HP Quality Center, JAD, Rational ClearQuest, RTM, UAT, Confluence
Soft Skills: Decision-making, Independent Research, Risk Analysis, Business Management, Operations Management, Resourcefulness, collaboration, Strong verbal and written communication skills, Time Management, Customer service, Creative Thinking, Multitasking, Presentation skills, Leadership skills, Problem-Solving
Operating System: Windows, Linux

EDUCATION

Master of Science in Information Technology and Management The University of Texas at Dallas, USA	Dec 2024
Bachelor of Science in Information Technology Jawaharlal Nehru Technological University, Hyderabad, India	May 2021

EXPERIENCE

JP Morgan Chase & Co., TX | July 2023 – Present | Business Analyst

- Spearheaded the development of comprehensive **Business Requirement Documents (BRDs)** and **Functional Requirement Documents (FRDs)** to support the implementation of financial systems, ensuring alignment with stakeholder expectations and regulatory standards.
- Utilized **Agile/Scrum** methodologies to facilitate iterative project delivery, conducting sprint planning and daily stand-ups to enhance team collaboration and deliver high-quality solutions within tight deadlines.
- Conducted **cost/benefit analysis** and **impact analysis** to evaluate proposed system enhancements, providing actionable insights that saved 15% in operational costs for a key financial reporting project.
- Leveraged **Tableau** and **Microsoft Excel** to create interactive dashboards and perform data analysis, enabling stakeholders to make data-driven decisions for portfolio management.
- Managed requirements traceability using **Requirements Traceability Matrix (RTM)** and **JIRA**, ensuring all business needs were addressed during the software development lifecycle (SDLC).
- Facilitated **Joint Application Design (JAD)** sessions to gather requirements from cross-functional teams, improving communication and reducing project scope creep by 20%.
- Demonstrated strong **problem-solving** and **decision-making** skills by resolving critical issues during User Acceptance Testing (UAT), ensuring seamless deployment of a risk management tool.

Virtual Infotech Solution, India | March 2020 - April 2022 | Business Analyst

- Authored detailed **System Requirement Specifications (SRS)** to support the development of a client-facing analytics platform, ensuring clear communication of technical requirements to development teams.
- Implemented **Waterfall** methodology for a large-scale data migration project, creating structured project plans using **MS Project** to meet critical milestones and deliver on time.
- Performed **GAP analysis** and **SWOT analysis** to identify process inefficiencies, recommending solutions that improved operational efficiency by 25% for a client's CRM system.
- Utilized **Power BI** and **SQL** to develop advanced reports and queries, providing actionable insights that increased client satisfaction scores by 30%.
- Coordinated with stakeholders using **Confluence** to document project progress and maintain a centralized knowledge base, enhancing team collaboration and transparency.
- Conducted **risk analysis** to identify potential project bottlenecks, implementing mitigation strategies that reduced delivery delays by 10% across multiple projects.
- Designed process workflows using **Microsoft Visio**, streamlining business processes and improving cross-departmental communication for a supply chain optimization initiative.
- Exhibited **leadership skills** and **time management** by managing multiple projects simultaneously, ensuring the timely delivery of key deliverables while mentoring junior analysts.
