PROFESSIONAL SUMMARY

Transitioning from microbiology to cybersecurity, I bring a unique blend of lab precision and data integrity to securing digital systems. Currently pursuing an M.S. in Cybersecurity Engineering with hands-on experience in Python, Linux, and secure data handling. Recognized for streamlining processes, enforcing compliance, and supporting secure environments across HR and R&D operations.

CORE COMPETENCIES

- Cybersecurity Principles & Risk Management
- Python programming
- SQL, Linux, Network Security (Coursework)
- Data Privacy & Compliance (PII, HIPAA awareness)
- Process Optimization & Digital Transformation
- Talent Management & HRIS Operations
- Microsoft Office Suite, Google Workspace
- HR policies and procedures
- SOP Development & Audit Support
- Laboratory Operations & Documentation (LIMS)
- Analytical thinking

CERTIFICATIONS

- Google Cybersecurity Certificate (Linux, SQL, Network Security, Risk Management, Detection & Response, Python), Oct 2024 - Jun 2025
- Microsoft Certified: Azure Fundamentals (AZ-900), June 2025

AWARDS

- President's Volunteer Service Award, 2020

WORK HISTORY

DMSI Staffing/ Ross Distribution Center - HR Representative *Bakersfield, CA • 04/2024 - 10/2024*

- Managed HR operations for 200+ employees, streamlining onboarding and leave tracking systems, reducing processing time by 20%, including new hire orientation, leave administration (FMLA, PTO), and termination processing.
- Maintained secure and accurate employee records, processed sensitive forms (I-9, W-4), and ensured compliance with labor regulations.
- Conducted internal investigations, enforced disciplinary actions, and participated in weekly safety audits and incident evaluations.

Sea Crystal Creations - Operations Manager *Bakersfield, CA • 03/2023 - 03/2024*

- Led the transition from manual to digital inventory systems, incorporating access controls and reducing discrepancies by 30%.
- Performed market analysis across multiple product lines, increasing monthly revenue by 15%.
- Enforced data privacy standards for secure handling of customer PII and payment information.

Intrinsyx Bio - Research Associate - Microbiology *Sunnyvale, CA • 04/2022 - 03/2023*

- Cultured microbial strains aseptically and analyzed samples using CFU methods to support sustainability-focused R&D.
- Prepared reagents, media, and operated lab equipment (pH meter, autoclave, laminar hood).
- Supported DNA extraction, PCR, and sample submission for

EDUCATION

University of San Diego

San Diego, CA • Expected in 05/2027

M.S.: Cybersecurity Engineering

In Progress

Cornell University

07/2023

Graduate Certificate: Data Analytics

Completed

California State University, Stanislaus

Turlock, CA • 12/2020

Bachelor of Science: Biological

Sciences

Completed

sequencing.

- Documented results in lab notebooks, presentations, and created SOPs, and participated in lab safety audits.
- Conducted and documented over 35 controlled lab experiments weekly, adhering to strict data integrity and compliance standards.

Mérieux NutriSciences - Lab Technician - Microbiology

Salida, CA • 01/2021 - 10/2021

- Conducted sample preparation and microbiological testing procedures in compliance with SOPs.
- Maintained laboratory sanitation, performed QC checks, and used LIMS for data entry and tracking.
- Managed lab supply inventory and supported cross-functional testing activities in a fast-paced environment.
- Performed quality control checks with a 95% accuracy rate, detecting discrepancies and ensuring system reliability.

AFFILIATIONS

- Participant, DoD Cyber Sentinel Skills Challenge, June 2025
- Contributor, Microsoft AI Skill Fest - Guinness World Record Holder, April 2025
- Women in Cybersecurity (WiCys), Since February 2025
