Education

Masters of Science, University of Colorado Boulder, Boulder, CO *Graduated May 2025*

Major: Data Science

GPA: 3.97

Relevant Coursework: Statistical Methods, Machine Learning, Data Mining, GIS, Information Visualization, Big Modern Data Tools

Bachelor of Science, Eckerd College, St. Petersburg, FL *Graduated May 2021*

Major: Marine Science (Biology concentration), Minor: Computer Science

GPA: 3.84

Relevant Coursework: Calculus, Programming, GIS, Data Science Fundamentals, Statistics

Skills

Programming: Python (NumPy, Pandas, TensorFlow, Scikit-Learn, Seaborn), R (tidyverse, dplyr, ggplot2), SQL, Scala, Spark

Tools: Microsoft Excel, ArcGIS, Tableau

Relevant Work Experience

Statistical Methods and Applications II Course Assistant, CU Boulder *08/2024 - 12/2024*

- Guided students in statistical methods and R through weekly office hours.
- Assisted with Canvas course management to ensure accessibility.

Project Experience

Capstone Project with Q2 Impact

01/2025 - 05/2025

- Developed a geospatial visualization platform for humanitarian crisis mapping.
- Automated data gathering via web scraping and APIs.

XGBoost Model for Algal Bloom Prediction

09/2024 - 12/2024

- Built an XGBoost model with 80% accuracy to predict harmful algal blooms.
- Identified key environmental factors using feature importance analysis.

Understanding and Predicting Harmful Algal Blooms

01/2024 - 05/2024

- Utilized Python for data collection, cleaning, and machine learning (PCA, SVMs, Neural Networks).
- Employed statistical testing (ANOVA, BIC) to refine predictive models.

Ocean Microplastic Trends

09/2023 - 12/2023

- Conducted data mining and clustering on microplastic trends across global oceans.

Trends in Oropharyngeal Cancer

09/2023 - 12/2023

- Applied statistical analysis and data visualization to study medical trends in cancer research.

Additional Work Experience

Swim Instructor, Ocean First, Boulder, CO

09/2023 - Present

- Taught swimming lessons and coached advanced swimmers.

Research Assistant at ManagedLab Services, Redwood City, CA

09/2021 - 06/2023

- Managed liquid handling robotics and chemical compound processing for pharmaceutical research.

Organizations

The Phi Beta Kappa Honor Society

05/2021 - Present
