Objective

Detail-oriented **Data Analyst** with **5+ years** of experience in **data analytics, visualization, and business intelligence**. Passionate about leveraging **SQL, Python Tableau, and Power BI** to drive data-driven decision-making. Managed **data analytics for a \$3B capital construction fund** spanning **900+ projects across 25 CUNY campuses** in NYC, optimizing reporting and strategic insights. Seeking to utilize expertise in **data modelling, dashboard development, and performance optimization** to contribute to a dynamic, growth-oriented organization.

Professional Summary

- Experienced **Data Analyst** skilled in **data visualization, analytics, and reporting**.
 - Proficient in **SQL, Python, Tableau, Power BI, and Excel** for extracting, transforming, and visualizing data insights.
 - Adept at **creating dashboards, automating reports, and enhancing decision-making processes**.
 - Strong expertise in **data cleaning, transformation, and modeling** for accurate and actionable insights.
 - Experience in **ETL pipelines, managing large datasets**, and streamlining data operations.
 - Knowledge of **Microsoft Azure (DataBricks, Azure Data Lake)** for cloud-based data solutions.
 - Expertise in **SQL optimization, database design, and performance tuning** for efficient reporting.
 - Strong analytical mindset with the ability to **translate complex data into business insights**.
 - Experienced in **project management (Agile, Scrum)** and collaboration with stakeholders.
 - Demonstrated success in aligning business goals with data solutions, improving organizational outcomes.
 - Skilled in collaborating with cross-functional teams to implement data strategies that scale.
 - Experienced in designing performance dashboards that enhance visibility and tracking of key initiatives.
 - Proven track record of transforming raw data into compelling insights for operational improvements.
 - Adept at maintaining data integrity and applying governance standards in reporting processes.
-

Skills & Tools

- **Data Visualization:** Tableau, Power BI, Excel (Pivot Tables, VLOOKUP, Macros)
 - **Databases & Querying:** SQL (PostgreSQL, MySQL, SQL Server)
 - **Programming:** Python (Pandas, NumPy, Matplotlib)
 - **Data Analytics & ETL:** Data Modeling, KPI Dashboards
 - **Cloud & Project Management:** Microsoft Azure (DataBricks, Azure Data Lake), PMWeb
 - **Methodologies:** Agile, Scrum, Data-Driven Decision Making
-

Professional Experience

Data Analyst

Sept 2024 – Present

City University Construction Fund (FPCM) – NYC

Environment: SQL, Tableau, Power BI, Python, Excel, PMWeb

- Developed **Tableau and Excel dashboards** to track CUCF's **\$3B capital construction program**.
- Automated **Excel workflows**, reducing manual reporting efforts by **40%**.
- Created **Power BI dashboards** for project trends and risk analysis.
- Managed **data extraction, transformation, and reporting** for strategic planning.
- Provided data insights for executive leadership to guide policy decisions related to campus construction projects.
- Integrated data from multiple project tracking systems to streamline reporting.
- Coordinated with project managers, Finance and IT teams to validate data accuracy and resolve inconsistencies.

Business Analyst

Sept 2019 – July 2023

Zeo Minds IT Solutions Pvt Ltd – Hyderabad, India

Environment: SQL, Python, Tableau, Power BI, Excel,

- Worked with cross-functional teams to gather requirements and convert them into technical specifications.
- Built end-to-end business intelligence workflows to support customer analytics.
- Identified and resolved data quality issues through rigorous testing and validation.
- Trained junior analysts on dashboard development and SQL scripting best practices.
- Regularly presented findings to leadership teams to support strategic initiatives.
- Led monthly performance review presentations with stakeholders using dynamic data dashboards.
- Partnered with sales and operations teams to define KPIs and deliver analytical solutions.
- Conducted root cause analysis on declining sales trends and suggested data-backed improvements.
- **Developed Tableau & Power BI dashboards** for sales and operations tracking.
- Designed **SQL-based reports**, increasing reporting efficiency by **50%**.
- Implemented **Excel automation (VBA, Pivot Tables)**, reducing data processing time.
- Conducted **data-driven analysis**, boosting revenue by **30%**.
- Managed **MySQL student accounts database**, ensuring accurate payment tracking.

Education

Zicklin School of Business, Baruch College (CUNY) – New York, NY

MS in Business Analytics

Avinash College of Commerce – Hyderabad, India

Bachelor of Business Administration

Projects & Achievements

- Built **Tableau dashboard** to analyse sales performance, reducing reporting delays by **35%**.
- Developed **automated SQL scripts**, improving data retrieval speed by **50%**.
- Conducted **EDA project using Python** on **9,000+ job listings** for hiring trends.
