PROFESSIONAL SUMMARY

Data Analyst & QA Engineer with over 5 years of combined experience in data analytics and software quality assurance, showcasing a strong command of SQL, Python, and data visualization tools. Demonstrates expertise in automating data operations and enhancing product reliability, contributing significantly to strategic decision-making and process improvements. Passionate about leveraging analytical skills to drive data-driven insights and ensure software excellence, ready to embrace new challenges and innovations in the field.

EDUCATION

Master of Science, Management Information Systems, Northern Illinois University, USA, Dec 2021 **GPA - 3.876/4.0**

Bachelor of Engineering, Electronics Engineering, University of Mumbai, INDIA, June 2012 **GPA - 3.2/4.0**

TECHNICAL SKILLS

Software & Tools: JIRA, Confluence, Zephyr, Bugzilla, SSRS, MS SQL Server, Power BI, Tableau, Visual Studio, SAP ERP

Programming & Scripting: SQL, Python, R, XML, JSON, HTML

Testing & Methodologies: Manual Testing, Functional Testing, Regression Testing, UAT, System Integration Testing, Performance Testing, AB Testing, API Testing

Data Analytics: Data Visualization, Data Modeling, RDBMS, Report Generation

WORK EXPERIENCE

Data Analyst, Meyer and associates, New Jersey, USA – Insurance Industry **May 2022 – Dec 2024**

- Analyze large customer datasets with SQL and Excel, providing insights for strategic marketing decisions.
- Maintain SSRS dashboards for real-time data visualization, enhancing decision-making processes.
- Experienced in writing complex SQL queries using JOIN operations and stored procedures to extract and analyze data related to insurance policies and customers.
- Automate data operations using Python, cutting manual processing time by nearly one-third.
- Document workflows and improve processes, contributing to analytics pipeline efficiency.
- Maintained comprehensive documentation of data processes, ensuring compliance, and facilitating knowledge transfer within the team.

Quality Assurance Engineer, Global Eagle, Mumbai, India **Sep 2015 – Nov 2018**

- Designed and executed 200+ detailed test plans and test cases in JIRA using Zephyr for Functional, GUI, UAT, Performance, and System Integration testing across mobile and web applications.
- Performed thorough regression testing, ensuring software stability, and minimizing post-release defects.
- Collaborated with cross-functional teams in sprint planning, requirement analysis, and backlog grooming to define testing objectives and acceptance criteria.
- Worked closely with developers and stakeholders to identify defects early in the SDLC, enhancing overall software quality.
- Increased test coverage by 20%, improving overall software reliability and performance.
- Conducted exploratory testing to identify edge cases and undocumented defects.
- Led knowledge-sharing sessions, mentoring team members on testing strategies, product knowledge, and best practices.
- Documented test strategies, test execution details, and defect reports in Confluence, streamlining knowledge management and project transparency.

Embedded Test Engineer, Echtzeit Technologies Pvt Ltd, Pune, India **Apr 2014 – Apr 2015**

- Worked on the White Box Testing and performed Unit Testing and Regression Testing.

PROFESSIONAL CERTIFICATIONS AND HONORS

- **Microsoft Azure Data Fundamentals** **Oct 2022**
- **SAP-TERP10 Certified Business Associate, Northern Illinois University,** **May 2021**
- **Outstanding MIS Student Award, OMIS Department, Northern Illinois University** **Aug 2021**
- **ISTQB Certified Tester, International Software Testing Qualification Board** **Sep 2015**
- **Diploma in Software Testing, SEED InfoTech Ltd, Mumbai, India** **Aug 2015**
