SUMMARY

Experienced **Product Manager** with a focus on driving results, leading cross-functional collaboration, expertise in long-run roadmaps with data-driven decision making and strong strategic planning with customer-centric approach

EXPERIENCE HIGHLIGHTS:

- **Proven Leadership in AI:** Led AI-driven initiatives in **healthcare** and **inventory automation**, aligning with AI-based solutions.
- **Cross-Functional Collaboration:** Managed communication among **technical**, **financial**, and **operational** teams.
- **Generative AI Expertise:** Delivered **ML**, **automation**, and **Computer Vision** solutions with strong generative AI skills.
- **Healthcare Projects:** Implemented solutions addressing **operational challenges** and improving **regulatory adherence**.
- **Project Management:** Skilled in **Agile**, **Azure DevOps**, **Waterfall** and **Jira** for managing projects and stakeholders.

EXPERIENCE

PRODUCT MANAGER

Optimize [Apr 2023 – Present]

- **Led AI-Driven Healthcare Projects:** Spearheaded a digital healthcare initiative leveraging Azure Cloud services (Azure Synapse, Azure Data Lake, Azure Databricks) to automate medicine inventory management using machine learning.
- **Cross-Functional Collaboration:** Directed diverse teams of developers, ML scientists, and operations personnel, ensuring effective communication and collaboration to implement AI-powered solutions.
- **AI Solution Implementation:** Designed and deployed **AI-driven** inventory automation systems using C++, Java, and microservices, increasing operational efficiency by **150%**.
- **Risk Mitigation:** Developed and executed risk mitigation strategies across technical, financial, and product domains, ensuring smooth project delivery at **5** sites within seven months.
- **Business Impact:** Achieved a **30%** reduction in medical disposal costs and optimized shelf space utilization (**2x** throughput), contributing to **\$1.2M** in additional revenue.

PRODUCT MANAGER

Impel [May 2018 – June 2020]

- **Strategic Leadership:** Managed cross-functional teams to deliver scalable web solutions, emphasizing CI/CD pipelines and Agile development practices to enhance client satisfaction and scalability.
- **Revenue Growth:** Negotiated project scopes, timelines, and budgets, leading to a **180%** increase in business revenue by onboarding six platinum clients and scaling services for **1.5x** revenue growth.

SOFTWARE ENGINEER

Impel [Mar 2017 – May 2018]

- **B2B Web Solutions:** Developed backend components of B2B web applications for small businesses using Java, PHP, and Azure Cloud services, reducing operational costs by **20%**.
- **API Integration:** Integrated APIs for payment gateways, shipping & database management, improving system efficiency & reliability.
- **Data Management Expertise:** Implemented ETL pipelines & migrated to Azure Data Lake, ensuring robust data flow and storage.

CERTIFICATIONS

- **Microsoft – Artificial Intelligence (AI)**
- **Google - Project Management Professional (PMP) Certificate** | **Technical Program Management** by Udemy

ACADEMIC PROJECTS

- **Cryptocurrency Forecast (AI ML)-** Developed AI ML project, predicted 91% of cryptocurrencies will be 3x in 10 yrs.
- **Uber Market Share Case Study (Project Management) -** Analyzed for spiked high price, focusing on Project Management.

EDUCATION

- **M.B.A. - Master of Business Administration (Analytics) -** Dallas, Texas | **Bachelor of Technology -** Computer Science

KEY SKILLS:

- **Cloud Platforms:** Azure Synapse, Azure Data Lake, Azure Databricks, Machine Learning, DevOps
- **AI & ML:** Machine Learning, Computer Vision, Data Analytics, ETL/ELT, ML Ops
- **Project Management Tools:** Azure DevOps, Jira, Microsoft Project
- **Methodologies:** Smartsheet, SDLC, Agile, Waterfall, Jira, Asana, CI/CD, Git, Bitbucket, Atlassian Tools
- **Programming Languages:** C++, Java, PHP, SQL
- **Soft Skills:** Cross-functional, leadership, stakeholder management, risk assessment, strategic plan
