

SWAPNIL SANJAY JOIJODE

DATA ANALYST

+1 617-961-9478 | daswapniljojode@gmail.com | Melissa, Texas | [LinkedIn](#)

PROFESSIONAL SUMMARY

Data Analyst and BI Engineer with 4+ years of experience translating complex datasets into actionable, production-ready insights. Proficient in Python (Pandas, Scikit-learn, TensorFlow, LightGBM) and SQL (JOINS, CTEs, Subqueries, Window Functions) for predictive modeling, feature engineering, statistical analysis, and workflow automation. Proven track record of optimizing data pipelines by 80%, automating refresh processes by 98%, and delivering \$100K+ revenue uplift through data-driven solutions.

EXPERIENCE

Senior Data Analyst, Vision Group Retail., NY, USA

Aug 2024 – Nov 2025

- Design executive-level interactive dashboards using BI platforms to monitor enterprise KPIs, improving leadership response speed by 22%.
- Author comprehensive technical and functional documentation (BRD, FRD, data specifications), reducing delivery ambiguity and cutting rework during build and validation phases by 30%.
- Oversee delivery governance by coordinating analytics handoffs, dependencies, and release tracking across multiple teams, improving transparency and on-time execution.
- Lead planning and execution of concurrent analytics initiatives using structured scheduling and tracking practices, ensuring milestone adherence across workstreams.

Data Analyst, Vanguard, NJ, USA

Jan 2024 – Jul 2024

- Optimized data extraction and transformation pipelines using SQL across cloud and relational databases, improving query performance by 35%.
- Performed process mapping and gap analysis using UML artifacts to identify workflow inefficiencies and reduce data handoff errors across teams.
- Elicited and translated technical requirements through stakeholder interviews and workshops into structured use cases and acceptance criteria.
- Implemented data validation checks and governance standards across reporting layers, reducing reporting errors by 32% and improving data reliability.

Data Analyst, TekSolve IT Solutions., MA, USA

Aug 2023 – Dec 2023

- Conducted exploratory and diagnostic analysis using advanced Excel features (PivotTables, Power Query, complex formulas), reducing ad-hoc data requests by 28%.
- Analyzed structured datasets to define key performance indicators and identify variance drivers across business functions, enabling more accurate trend analysis and improving forecast accuracy by 25%.
- Converted requirements into analytical deliverables through close collaboration with stakeholders, improving clarity and reducing rework during delivery cycles.
- Supported data validation and reconciliation processes across multiple reporting layers, ensuring data accuracy, consistency, and alignment of analytical outputs with source systems.

Data Analyst, Quantum Phinance Consulting Pvt. Ltd., MH, India

Jan 2020 – Dec 2021

- Analyzed large datasets using Python and statistical modeling techniques to identify trends and anomalies, improving data accuracy and analytical confidence across business teams.
- Validated feature relevance through hypothesis testing and A/B testing, eliminating weak predictors and increasing model stability by 18%.
- Built exploratory data models to support predictive analysis, enabling stakeholders to prioritize high-impact variables and reducing rework cycles by 20%.
- Collaborated with Agile teams to turn analytical findings into actionable insights, speeding sprint-level decisions.

SKILLS

Project Methodologies: Agile (Scrum), Waterfall, Kanban, SDLC

ML and Analysis: Python, Hypothesis Testing, A/B Testing, Data Modeling, Model Deployment (Flask, FastAPI), Dashboard Development, Data Visualization, Statistical Modelling, PySpark

Business Analysis Tools: Microsoft Excel (Advanced), Tableau, Power BI, Lucidchart, Miro, Figma, MS Visio, Smartsheet, Microsoft Project

Data Management s Analytics: SQL (intermediate), Python (data manipulation, automation), Workday SCM, Excel PivotTables, Power Query, VLOOKUP, HLOOKUP, Track Wise

Requirements Gathering s Process Analysis: Stakeholder interviews, workshops, process mapping, UML diagrams, use case development, user stories, acceptance criteria

Data Platforms s Warehousing: PostgreSQL, MS SQL Server, Snowflake, SQL (DML, DQL, DCL, DDL, TCL), Databricks

Documentation s Reporting: BRD, FRD, SRS, SOPs, data dictionaries, dashboards, KPI development

Version Control Collaboration: Git, GitHub, Agile Frameworks, SDLC, JIRA, Asana, Confluence, Trello, SharePoint

EDUCATION

Masters in Data Analytics

Jan 2022-Dec 2023

School of Professional Studies, Clark University , Worcester, MA, United States

Electronic and Telecommunication Engineering

Aug 2015-Jul 2019

Shivaji Rao S. Jondhale College of Engineering, Mumbai University

CERTIFICATIONS

Google Data Analytics

Data Engineer Associate certificate

Google Analytics for Beginners

Data Analytics and Visualization Job Simulation Foundations:

Data, Data Everywhere
