Collaborative Tools	Google Docs, Adobe Acrobat, EDI, Figma, Mural Board
Data Visualization tools	Microsoft Excel, PowerPoint, Google Charts
Testing Tools	Postman, BrowserStack, TestRail, Swagger
Agile Technologies	Agile Scrum, Kanban
Documentation Tools	Confluence, SharePoint, Wiki, Microsoft Suite
Prototyping Tools	Microsoft Visio, Balsamiq
Other	AWS Cloud Computing, Salesforce

PROFESSIONAL EXPERIENCE

Business Analyst

WINGATE HUGHES ARCHITECTS

Washington, DC

June 2022 – Aug 2023

- Coordinated feature release rollouts via change control and facilitated communication with end-users for seamless transitions.
- Prioritized and resolved production defects efficiently to maintain quick cycle times, utilizing effective triaging methods.
- Managed product backlogs by identifying requirements, crafting user stories, assigning relative estimates, and prioritizing tasks during sprint events to achieve specific key metrics.
- Developed prototypes, data models, and use case diagrams using Microsoft Visio to validate requirements and provide detailed support for user stories, along with creating requirement documents for team alignment.
- Produced scheduled and ad-hoc reports to fulfill client requests and managed intake board to address customer enhancement and support requests.
- Utilized Swagger, Postman and Newman for API documentation and validation as well as the design and implementation of RestAPIs.

- Collaborated with cross-functional teams and stakeholders to gather, analyze, and document business requirements, ensuring alignment and understanding.
- Developed test plans and scripts to conduct various testing such as functional, integration, regression, and user acceptance testing.
- Conducted data validation through SQL queries, comparing source and target data to capture and compare metrics accurately.

Business Analyst

STUDIO FOR

New York, NY

Oct 2020 – July 2022

- Developed and standardized reporting templates, streamlining data collection and reducing turnaround time for increased efficiency.
- Conducted SWAT analyses to assess the company's position, providing comprehensive insights into balancing threats, opportunities, advantages, and disadvantages.
- Utilized Tableau to generate sample data, create custom reports, and support the development team in delivering impactful reports.
- Spearheaded a cost-saving initiative by merging related products into a single, streamlined offering, resulting in reduced maintenance costs.
- Facilitated design workshops and end-user interviews to identify use cases, elicit requirements, and align business objectives effectively.
- Implemented consumer segmentation strategies, identified target groups, and managed suppression lists to ensure precise targeting and compliance.
- Utilized Google Analytics to track feature usage patterns and identified trends within the product suite, enabling data-driven decision-making.
- Released customer satisfaction surveys, analyzed feedback to determine pain points and collaborated with the team to address issues, enhancing overall customer satisfaction.
- Orchestrated agile ceremonies, guiding the team through sprint planning and user story estimation to ensure smooth project execution and alignment with objectives.
