

PROFESSIONAL SUMMARY

Recent **Informatics graduate** of **University of Albany**. I have experience in various programming languages like Python, HTML, and MySQL. I am currently seeking a **full-time position** where I can utilize and expand my skills.

EXPERIENCE

Operations analyst intern - Summer 2023

- Helped identify, collect, and track contracting job expenses. Develop solutions to analyze expenses and in field tasks to maximize operational efficiency.

EDUCATION

BS, Informatics | University at Albany, New York | August 2023 | Dean's list

AS, Computer Science | Columbia Greene, Hudson, New York | May. 2021

Past Projects:

- Programming for Informatics
 - used python **Spyder**(Anaconda3) to write various programs and presented with video explanations
- Intro to web technologies
 - Created multiple websites using **Python, javascript, html, and css**.
- Intermediate Networking
 - Learned about network protocols, operating systems, routers, and how a **DNS** works.
- Analytics in Azure
 - used **Azure** to build/deploy web application and collected metrics
- Human Computer Interactive
 - created a health app using Figma.
- Programming for Problem Solving
 - Wrote various programs using **python** to solve complex math problems
- Information Security Privacy
 - Presented multiple projects on online privacy, information security, cloud computing, cloud environments, and encryption.
- Information Security Assurance
 - Learned about **cybersecurity**, attacks, defenses, vulnerabilities, cryptography, forensics, policies and procedures.
- Digital Project Management;
 - Learned how to manage a project and scheduling minimum risk.
- Emerging Trends info & tech
 - Discussed current trending information with technology.

SKILLS

OS: Windows, Unix/Linux

Languages: Java, Python, MySQL, HTML, javascript

Software: Eclipse, Microsoft Azure, FTK Imager, Wireshark, Oracle VM virtualbox

Techniques: Software Testing & automation, Agile, troubleshooting, DNS, web design
