Work Experience

Cashless Systems Analyst

Coca-Cola Bottle Consolidated

February 2017 to Present

Access, Excel, SAP

* Project Management: General troubleshooting and execution of several thousand readers swapped from one SAP system into another, more expedient SAP system. Ad-hoc troubleshooting with branch-communications and accounts that meet objective criteria.

* Analysis and Accounting: Managing the general ledgers, reconciliations and data of approximately 50 accounts and their sub-accounts pertaining to Coca-Cola's cashless/credit-card vending systems.

Analyst Contractor

AccruePartners

October 2016 to February 2017

Access, Excel, SAP

* Analysis and Accounting: Maintaining General ledgers, reconciliations, and data thereof of approximately 50 accounts

* Project Management: Credit Card/Debit Card reader maintenance and ensuring the data is accurately and meticulously held in our databases. Data validation tests and techniques are used here.

Business Support Analyst

PLM Trailer Leasing - Montvale, NJ

July 2015 to August 2016

Excel, SQL, VBA, RMI

* Process Improvement: Worked with AR, AP and Billing/Collections departments to streamline the processes that were currently in place. Data-extraction and centralization were the focus of these process improvements. Created an organized, shared system for branches to streamline the credit authorization process for customers. Leveraged Sharepoint to increase visibility with branches across the United States to ensure transparency and improve communication.

* Project Management: Ad-hoc projects and communication with Inside Sales and Branch managers. Worked directly with the Vice President of the company's Customer Services to improve the credit-granting process for lower level customers. Helped evaluate the cost-benefit of a decision to switch credit-ranking companies. Leveraged competitive nature of their services to shift the credit-review data used for the company to a more centralized, simple version for lower-level customers.

Education

Bachelor's Degree in Economics

Rowan University - Glassboro, NJ

2012 to 2015

Skills

Microsoft SQL Server, Microsoft Excel, Microsoft Access, Microsoft Visual Studio, Javascript, C++, Customer Service, Project Coordination

Additional Information

I desire to learn more and more each day. I desire to apply my current knowledge in analysis in a career and move in the direction of development and project management.
