

UDAY KUMAR

571-412-4623 | dev.uday27@gmail.com

PROFESSIONAL SUMMARY

- Entry Level Java Developer with a strong foundation in Java, Object-Oriented Programming, and backend application development.
- Hands-on experience through academic projects and internships building Java applications, REST APIs, and database-driven systems.
- Comfortable working under guidance of senior engineers while actively contributing code, tests, and documentation.
- Motivated learner with strong problem-solving skills and interest in growing within a collaborative engineering environment.

TECHNICAL SKILLS

- **Languages:** Java, SQL
- **Core Concepts:** Object-Oriented Programming, Data Structures, Exception Handling
- **Frameworks:** Spring (basic), Spring Boot (introductory)
- **Web:** REST APIs, JSON
- **Databases:** MySQL, PostgreSQL
- **Tools:** Git, Maven, IntelliJ IDEA, Eclipse

PROFESSIONAL EXPERIENCE

Junior Software Developer / Intern

Jun 2023 – Dec 2023

Academic & Project-Based Experience

- Developed and maintained Java applications as part of academic and project-based teams.
- Implemented core business logic using OOP principles, improving code readability and maintainability.
- Built RESTful APIs using Spring Boot for CRUD operations and data access.
- Integrated relational databases using SQL queries and basic schema design.
- Debugged and fixed application issues, reducing runtime errors by 25%.
- Wrote unit tests and assisted with application testing and validation.
- Participated in code reviews and followed established coding standards.
- Collaborated with peers and mentors in an Agile-style development workflow.

PROJECTS

Java-Based Employee Management System

- Developed a Java application to manage employee records with CRUD functionality.
- Integrated MySQL database and optimized SQL queries, improving data retrieval speed by 20%.
- Applied OOP principles to create modular and maintainable code structure.

Spring Boot REST API Project

- Built RESTful APIs using Spring Boot to expose backend services.
- Implemented request validation, exception handling, and basic authentication logic.

Database-Driven Web Application

- Designed relational database schemas and wrote SQL queries for reporting features.
- Improved query performance and reduced redundant database calls.

EDUCATION

Auburn University at Montgomery

Master of Science in Computer Science

Montgomery, AL

Graduated May 2025

Jawaharlal Nehru Technological University Hyderabad

Bachelor of Technology in Computer Science and Engineering

Hyderabad, India

Aug 2016 – May 2020
