

# VAISHNAVI MANDALAPU

## Data Analyst

Location: USA | Phone: (940) 629-3968 | Email: [VAISH772MANDALAPU@GMAIL.COM](mailto:VAISH772MANDALAPU@GMAIL.COM) | [LinkedIn](#)

### SUMMARY

- Data Analyst with over 4 years of experience across healthcare, technology, and enterprise domains.
- Expertise in analyzing large, complex datasets to uncover actionable insights and support business decisions.
- Proficient in Python, SQL, and R, with a strong command of data visualization tools like Power BI and Tableau.
- Experienced in building end-to-end ETL pipelines using Apache Airflow, Alteryx, Talend, and dbt.
- Skilled in cloud-based analytics with AWS services including Redshift, S3, Athena, and Lambda.
- Strong foundation in statistical modeling, A/B testing, time series forecasting, and machine learning techniques.
- Delivered scalable solutions using modern frameworks like FastAPI, Streamlit, and NLP tools such as NLTK.
- Adept at Agile methodologies, cross-functional collaboration, and communicating insights to technical and non-technical stakeholders.
- Knowledgeable in HIPAA compliance, EHR/EMR systems, and healthcare data analytics best practices.

### SKILLS

- **Programming Languages:** Python, SQL, R
- **Databases & Data Warehouses:** PostgreSQL, SQL Server, MySQL, Snowflake, Teradata, BigQuery
- **Data Visualization:** Power BI, Tableau, Advanced Excel
- **Libraries & Frameworks:** NumPy, Pandas, Matplotlib, Plotly, Seaborn, Streamlit, FastAPI, NLTK
- **Data Engineering:** Alteryx, Talend, Informatica, Apache Airflow, dbt
- **Cloud Platforms:** AWS (Redshift, DynamoDB, S3, Athena, Lambda)
- **Methodologies:** SDLC, Agile (Scrum), Waterfall
- **Version Control:** Git, GitHub
- **Machine Learning Techniques:** Regression, KNN, Decision Tree, Naive Bayes, Random Forest, LLM
- **Healthcare Technologies:** HIPAA, EMR, EHR
- **Analytical Skills:** Data Mining, Data Cleansing, Statistical Analysis, Data Wrangling, Time Series Analysis, A/B Testing, Text Mining, ETL, Data Warehousing, SAP, SAS

### WORK EXPERIENCE

#### Humana

Feb 2025 to Present

##### Data Analyst

- Developed a scoring engine using Python and FastAPI to quantify social determinants of health by integrating claims, demographic, and external socioeconomic datasets.
- Implemented a Random Forest model enriched with LLM-extracted insights to enhance risk stratification and support targeted care interventions.
- Automated data pipelines with Alteryx and Apache Airflow to feed Snowflake-based dashboards, enabling real-time updates for population health analysts.

#### CVS Health

Jul 2024 to Dec 2024

##### Data Analyst Intern

- Supported the development of a Python-based pipeline to standardize Electronic Health Record (EHR) data into FHIR-compliant formats.
- Executed and optimized SQL queries on BigQuery and SQL Server to extract and validate clinical data, improving EHR data consistency by 30%.
- Utilized Pandas for data cleansing and transformation while ensuring adherence to HIPAA data privacy standards.
- Collaborated with data engineers, compliance analysts, and healthcare stakeholders in Agile sprints to resolve mapping discrepancies.
- Created documentation outlining data flow, validation checks, and standardization rules for future scalability and audit readiness.

**Data Analyst**

- Designed and developed real-time Power BI dashboards to provide executive leadership with instant visibility into global sales performance and KPIs.
- Transformed raw sales and CRM data from PostgreSQL and Snowflake using dbt models for clean, analysis-ready datasets.
- Automated ETL workflows using Apache Airflow, improving data pipeline reliability and reducing manual intervention.
- Collaborated in an Agile environment to gather business requirements and prioritize dashboard features in two-week sprint cycles.
- Performed data wrangling and cleaning using Python (Pandas, NumPy) to ensure high data quality and accuracy across regional datasets.
- Conducted A/B testing on sales campaign strategies, delivering actionable insights to improve conversion rates.
- Integrated AWS Redshift and S3 for scalable storage and faster query performance across large-volume sales data.
- Built backend APIs using FastAPI to support dynamic, filterable visualizations within the BI dashboard.
- Enabled senior leadership to track pipeline movement and revenue forecasts, reducing decision-making time by 40%.

**Trigent****Mar 2019 to Dec 2020****Data Analyst**

- Revamped legacy sales reporting system by developing interactive Tableau dashboards, reducing report generation time by 45%.
- Extracted, transformed, and aggregated large datasets using complex SQL queries from SQL Server and MySQL databases.
- Conducted data wrangling and trend analysis using Python (Pandas, Matplotlib) to identify key sales drivers.
- Built and maintained ETL pipelines using Talend and Informatica to ensure data consistency and refresh accuracy.
- Performed comprehensive data cleansing and validation, enhancing reporting accuracy across regional sales units.
- Applied statistical analysis techniques to identify sales anomalies and optimize promotional strategies.
- Collaborated with business stakeholders to define KPIs and ensure dashboard alignment with business goals.
- Utilized Advanced Excel and Tableau to develop self-service reporting tools for non-technical users.
- Maintained version control of scripts and workflows using Git, following SDLC and Waterfall methodologies.

**PROJECTS****Real-Time Claims Monitoring System**

- Created a real-time monitoring system using AWS Lambda and Athena to flag anomalies in claims data pipelines.
- Integrated dbt and Apache Airflow to build modular, scheduled data transformations that support compliance reporting.

**Financial Forecasting Dashboard**

- Built a dynamic Tableau dashboard integrated with SQL Server to visualize and forecast quarterly healthcare expenditures using ARIMA modelling in R.
- Provided predictive insights to the finance team, supporting budget planning and reducing variance by highlighting early cost trends.

**EDUCATION****Master of Science in Data Analytics****Jan 2023 – Dec 2024**

Oklahoma City University, Oklahoma, USA | GPA: 4.0/4.0

**Bachelor of Commerce and Computer Science****June 2017 – Sep 2020**

KV Ranga Reddy Degree College, Hyderabad, India | GPA: 9.3/10
