PROFILE

Seasoned Business Data Analyst with 4 years of experience in data-driven decision support. Expert in SQL, Python, MS-Excel and Power BI for data extraction, manipulation and visualization. Proficient in applying statistical methods to derive insights that drive strategic decisions. Skilled in interpreting complex data to enhance decision-making and operational efficiency, committed to contributing to business success.

SKILLS

Programming & Tools: MS Excel, Python, SQL, Typescript, Figma, VS Code, Git, MS Visio, Salesforce

Data Visualization Tools: Power BI, Tableau, looker, Workbench, Alteryx, Google Analytics, SAS

Databases: MS-SQL, MySQL, Redshift, Snowflake, Big Query, PostgreSQL, MongoDB

Project & Workflow Management Tools: Jira, Gitlab, Kanban Board, Confluence, Trello, HubSpot, Agile, Scrum

Core Competencies: Business Process Improvement, Requirements Gathering and Management, Project Management, Financial Analysis, Business Intelligence

PROFESSIONAL EXPERIENCE

Business Data Analyst, BNY Mellon Jan 2024 – Present

- Created a vast Power BI dashboard to visualize key financial metrics like revenue, expenses, and profit margins, improving decision-making processes by delivering actionable insights, gaining 20% boost in financial planning.
- Developed real-time data reporting features within the dashboard to steady monitor and analyze financial performance leading 25% gain in stakeholder satisfaction due to enhanced data accessibility and relevance.
- Orchestrated ETL pipelines using SQL and Python (Pandas) for cleaning and transforming financial data from various sources using AWS Redshift and Glue for efficient data processing and integration, reducing processing time by 35%.
- Optimized marketing campaigns through A/B testing by analyzing variations in email campaigns, loan promotions, and credit card offers, achieving a 15% increase in conversion rates and a 20% boost in customer engagement.
- Utilized Alteryx and Google BigQuery to conduct sentiment analysis on customer feedback ratings and their open-ended experience comments, which contributed to a 15% increase in customer satisfaction scores, 13% uplift in the sales.
- Partnered with cross-functional teams of data engineers and data scientists to streamline data flow, enhancing integration between data analysis processes for improved insights and decision-making.

Business Data Analyst, Tata Capital Dec 2020 – Dec 2022

- Executed wide market research employing sophisticated analytical techniques and financial modeling to discern market trends, competitive landscapes, and investment opportunities, thereby supporting informed strategic decision-making.
- Enforced Six Sigma methodologies to enhance financial processes, for 20% boost in operational efficiency via data-driven optimizations and quality control measures, which led to notable reductions in costs and processing times.
- Led data visualization initiatives using Power BI and DAX formulas to amplify user insights, improved data accuracy by 25% through effective data preprocessing.
- Leveraged Project Management tools like Jira, Confluence to effectively manage team and communicate efficiently for the business and enhance the Business Intelligence for the stakeholders by 14%.

Data Analyst, LPU Data Analytics Club Nov 2019 – Nov 2020

- Conducted statistical research using Excel pivot table and EDA techniques to identify patterns in enrollment and demographic shifts that led to a 12% increase in enrollment for underrepresented programs.
- Streamlined event organization by analyzing attendee data, applied data-driven strategies to optimize event schedules resulting in 15% increase in attendee registration and 10% improvement in post event engagement rates.

EDUCATION

State University of New York at Buffalo | Buffalo, USA Jan 2023 – Jun 2024

Master of Science in Data Science

Lovely Professional University | Phagwara, India Aug 2017 – May 2021

Bachelor of Technology in Computer Science & Engineering

ACCOMPLISHMENTS AND CERTIFICATIONS

- Awarded 'Rising Star' for 2022-Q3 by Tata Capital
- Power BI Job Simulation by PwC Switzerland
- Google Advanced Data Analytics, SQL Certificate – HackerRank
