Summary

Full Stack Engineer with 1 year of hands-on experience, supported by a Master's degree in Computer Science, designing and delivering cross-platform React Native applications and Node.js backend services. Proficient in Java, Python, JavaScript, RESTful API development, MySQL, MongoDB, and AWS-based deployments within Agile/Scrum environments. Seeking to leverage full-stack and cloud expertise to build scalable, secure, and high-performance software solutions.

Skills

- **Programming Languages:** Java, Python, JavaScript
- **Web & APIs:** REST APIs, JSON, Postman
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Cloud & DevOps:** AWS (EC2, S3, IAM), CloudWatch, Docker, Kubernetes
- **Development Tools:** Git/GitHub, Jira, VS Code
- **Software Practices:** Object-Oriented Programming, Debugging, Agile/Scrum, Data Structures
- **Operating Systems:** Windows, Linux (Ubuntu)
- **Support Skills:** Application troubleshooting, ticket-based support, documentation
- **Technology Domains:** Front End Technologies, Back End Technologies, Storage

Experience

Nutrix Corporation

2025 - Present

Application Developer Intern (Android & iOS)

Harrisonville, MO (Remote)

- Developed cross-platform mobile apps with React Native, using front end technologies (HTML/CSS) for UI components, writing features and APIs in JavaScript/TypeScript and backend services in Node.js/Express.js, and tracked tasks in Jira using Agile/Scrum practices, resulting in a functional prototype delivered ahead of schedule
- Integrated REST APIs and NoSQL-backed data, applying storage best practices and system design thinking to balance performance, scalability, and reliability
- Gained hands-on experience with back end technologies, understanding architecture, API workflows, and system integration

Academically Based Projects

AWS S3 Multi-Region Data Optimization

- Built a globally distributed static website with S3 Multi-Region, Route 53 latency routing, and CloudFront CDN.

AI Customer Service Chatbot

- Developed a serverless chatbot using Amazon Lex, Lambda, and API Gateway with real-time monitoring in CloudWatch.

Education

University of Bridgeport

2025

Master of Science, Computer Science

Vignans Lara Institute of Technology

2022

Bachelor of Technology, Mechanical Engineering
