Professional Summary:

- Over **5 years** of experience as a **Devops Engineer**, with a strong focus on **IT infrastructure** management and **automation**.
- Designed, implemented, and automated scalable infrastructure using tools like **Terraform**, **Ansible**, and **CloudFormation**.
- Developed scripts in **Python**, **Bash**, **PowerShell**, **Perl** for automating routine tasks in order to reduce manual errors and enhancing system efficiency.
- Deployed and managed scalable **On-Prem infrastructure & Cloud Infrastructure** on **AWS/Azure**.
- Experience with **containerization & container orchestration** technologies such as **Docker** and **Kubernetes**, optimizing deployment and scaling of microservices architectures.
- Implemented **CI/CD pipelines** using **Jenkins** and **Git/Gerrit**, streamlining the software release process and reducing deployment errors.
- Deployed, configured, and maintained VM's in **VMware vSphere** environments, installed **vCenter's** and **ESXI**, ensuring high availability, performance, and scalability
- Adept at managing **Linux** systems (**SLES 15**, **CentOS**, **RHEL 7/8/9**), ensuring high availability, performance, and security through proactive monitoring and maintenance.
- Implemented and managed monitoring and alerting systems using **Prometheus** and **Grafana** to track Kubernetes cluster health, resource utilization, and application performance.
- Played a key role in **Data Center Migration** projects, coordinating with cross-functional teams and external vendors to ensure seamless transitions and minimal downtime.
- **Collaborative team player, quick learner, Well-organized**, highly adaptable to quickly changing technical environments, enthusiastic and eager to learn new technologies followed by implementing them in challenging environments.

Professional Experience:

ICT Engineer

Ericsson India Private Limited

Chennai, India (December 2022 to May 2024)

Ericsson Charging System:

Deploying, Configuring & Troubleshooting end-to-end Ericsson Charging Applications (SDP/AIR/OCC) on all platforms to establish a secure means of end-to-end communication.

- Continuously collaborated with product management and development teams for Automated/Manual Installations and upgrades of Ericsson Applications on **containerized / virtual / Bare Metal Servers**
- Continuously deployed, configured, and maintained VM's in **VMware vSphere** environments & **vCenter's** ensuring high availability, performance, and scalability.

- Developed and maintained automation scripts using **Python, Bash, Ansible, and Terraform**, reducing manual tasks and accelerating deployment processes.
- Monitored and troubleshooted both Linux (**RHEL 7/8/9, CentOS, Ubuntu, SUSE 15**) and **VMware vSphere 7.0** environments, ensuring system reliability and quick resolution of issues
- Worked closely with **Network** (Port openings, N/W **Troubleshooting** issues) and **Hardware** teams (**ILO-HP** activities) to ensure machines (**Physical/Virtual/containers**) are up & running.
- Monitored and managed AWS services i.e. **EC2, S3, RDS, VPC, CloudWatch, Lambda and IAM**.
- Developed and implemented **backup** strategies for both VMware and Linux environments, ensuring data integrity and system recoverability.
- Well versed with **Incident Management, Change Management, and Problem Management** procedures.
- Worked on **Agile/Scrum** Methodology and good at **multi-stakeholder** management skill.

Senior Systems Engineer

Infosys Limited

Hyderabad, India (October 2020 to December 2022)

Twice As Fast – Datacenter Transformation:

Datacenter Migration as well as consolidation of all Daimler Datacenters that spread across worldwide to reduce the carbon footprints emitted from a Datacenter.

- Gathered Client Requirements from user, identifying architecture of the application and analyzing it and writing technical documents for the same whether it falls under **Re-Host** or **Re-Launch** Migration.
- Migrated **Linux Servers & windows server's** using **rsync & Double Take/ VMware Converter** Methods.
- Managed and installed Software Packages on client systems.
- Prepared **Run books** for analyzing the architecture of the application.
- Supported the administration of VMware environments, including **VM creation, snapshot management**, and performance monitoring, **Disk Management, HA, DRS, VMotion & SVMotion**.
- Developed **Bash scripts** and **Cron Jobs** to **automate** routine administrative tasks.
- Managed user accounts, permissions, and group policies to ensure proper access control and security.
- Provided technical support for both **Linux** and **VMware** issues, troubleshooting system errors, cloud Infrastructure issues, network problems, **Active Directory** and application performance issues.
- Assisted in the installation and configuration of Linux servers, performing system updates and patch management.
- Experience in managing **Global** and **Cross-functional** teams.

Infosys Limited

Winter Intern

Mysore, India (June 2019 to October 2020)

Developed a comprehensive web application aimed at streamlining hospitalization management processes. The application facilitated the management of patient records, doctor schedules, bed allocation, billing, and real-time updates on patient status.

- Designed and developed web application using HTML, CSS, Bootstrap, JavaScript, c#, MSSQL ensuring a responsive and user-friendly experience across devices.
- Had Coordinated with different teams for implementing tasks.

Technical Skills:

Project Management Tools	JIRA, ServiceNow
Operating Systems	Linux (SLES 15, CentOS, RHEL 7/8/9), Windows Server
Scripting & Automation	Python, Bash (Shell Script), PowerShell, Groovy, Perl
CI/CD Pipelines	Jenkins
Containerization &Orchestration	Docker, Kubernetes
Infrastructure as Code (Iac)	Terraform, Ansible, Chef, Puppet
Public Cloud Platforms	AWS, Azure
Version Control	Git, Gerrit, GitHub, Bitbucket
Monitoring & Logging	Prometheus, Grafana, ELK, Datadog
Virtualization	VMware vSphere, ESXi, vCenter, VirtualBox, Hyper-V
Networking	TCP/IP, DNS, Firewall
Programming Language	Python, Java(basics), C#, Go
Databases	MySQL, MSSQL, SQL/PLSQL, SQL
Front End Technologies	HTML5, CSS, JavaScript, bootstrap
IDE's & Frameworks	Visual Studio Code, PyCharm

Education:

Bachelor of Technology in Information Technology, September 2020

Andhra University, Visakhapatnam, Andhra Pradesh, India. (GPA 9.53/10)

Certifications Acquired:

BCSS-AWS Experience Level - Ericsson

BCSS Cloud Fundamental Level - Ericsson

Microsoft Certified Azure Fundamental's (AZ-400)

Certified Kubernetes Administrator – Udemy

Red hat Delivery Specialist – Automation

Infosys Certified Python Associate

Associate - Data Protection and Management Version 1.0 – Dell Technologies
