

Vishnu Mallampalli

Data Analyst

☎ +1 (940) 843-9186 ✉ mallampallivishnu2511@gmail.com [in LinkedIn](#) [GitHub](#)

Professional Summary

- Data Analyst with 4+ years transforming complex datasets into actionable insights across healthcare, finance, marketing, and supply chain.
- Leveraged Python, SQL, and BI tools (Power BI, Tableau, Looker, Excel) for comprehensive analytics.
- Built dashboards and real time reports that accelerated decision making and improved business outcomes.
- Designed scalable ETL pipelines (Airflow, Glue, DBT) and automated workflows to boost efficiency.
- Engineered cloud data solutions on AWS, Azure, and GCP using Snowflake, Redshift, and BigQuery, reducing query runtimes significantly.
- Applied statistics, A/B testing, forecasting, ML, and GenAI to automate reporting and accelerate insights.
- Strong communicator and collaborator, translating data into clear strategies for cross functional teams.

Work Experience

CitiusTech

January 2025 – Present

Data Analyst

United States

- Automated HIPAA compliant ETL pipelines with Python, SQL, SQL Server, and Snowflake, reducing manual effort by 30%, improving data quality by 20%, and lowering reporting errors by 15%.
- Developed dashboards in Power BI and Looker to monitor readmissions, ROI, fraud risk, and KPIs, cutting reporting delays by 25% and enabling faster decision making.
- Built predictive models (regression, random forest, XGBoost) and cohort analysis in Python and R, identifying high risk groups and increasing retention by 12%.
- Optimized pipelines with PySpark, Spark, and Hive, scaling analytics to 50M+ records and reducing query runtimes by 40% for near real time insights.
- Conducted A/B testing and digital experimentation in Python, R, and SQL, improving campaign ROI by 18% and provider performance by 15%.
- Implemented AWS solutions (S3, EC2, Redshift) and piloted GenAI workflows with RAG and LangChain to scale analytics, cutting reporting time and ad-hoc requests.
- Enhanced governance and data modeling with DBT, SQLAlchemy, and star schema, ensuring lineage, traceability, and compliance.
- Collaborated in Agile teams to define KPIs and deliver regulatory compliant analytics, leveraging JIRA and Git/GitHub for project management and version control.

Hexaware Technologies

March 2020 – July 2023

Data Analyst

India

- Developed dashboards in **Power BI, Tableau, and Excel (Pivot Tables, Power Query)** to track **KPIs**, boosting marketing efficiency by **28%** and reducing reporting delays by **15%**.
- Automated **SQL** and **Google Analytics** driven **reporting workflows**, cutting manual reporting by **60%** and providing **real time visibility** into campaign performance.
- Executed **customer segmentation** using **K-Means** and **Decision Trees** to enhance personalization in **financial services**, raising engagement by **17%** and conversions by **12%**.
- Led **A/B testing** and **statistical analysis (T-tests, Chi-Square)** on digital channels, increasing conversions by **18%** and generating **\$380K incremental revenue**.
- Built **predictive models** in **Python (logistic regression, attribution modeling, feature engineering)** for **churn prediction** and **marketing spend attribution**, improving accuracy by **25%** and **ROI allocation**.
- Applied **time-series forecasting (Prophet)** for **demand forecasting** and **inventory optimization**, reducing overstock by **18%** and strengthening **supply chain planning**.
- Piloted **GenAI applications (RAG pipelines)** and implemented **MLOps practices (MLflow, Hugging Face)** to improve **model deployment, monitoring, and adoption**.
- Collaborated with **marketing, sales, and product stakeholders** to align **analytics** with business objectives, accelerating **decision-making speed** by **20%** and improving **campaign ROI**.

Skills

Programming Languages: Python (Pandas, NumPy, SciPy, Scikit-learn, PySpark), SQL (Advanced Queries, Window Functions, Joins, Stored Procedures), R (Statistical Modeling, Visualization), Scala, SAS.

Databases: Microsoft SQL Server, MySQL, Oracle SQL Developer, PostgreSQL, MongoDB.

Cloud & Big Data Technologies: AWS (S3, EC2, Redshift, Glue, Lambda, Step Function, SageMaker), Azure (Synapse Analytics, Databricks, Data Factory), GCP (BigQuery, Dataflow, Vertex AI), OCI, Snowflake, Hive.

ETL & Data Engineering: Apache Airflow, DBT, Alteryx, Kafka, CDC Pipelines, SQLAlchemy, Validation Scripts.

Data Visualization & BI Tools: Power BI, Tableau, Looker, Excel (VLOOKUP, Power Pivot, DAX, Advanced Macros), Matplotlib, Google Analytics.

Machine Learning & AI: Forecasting (Prophet, LSTM, ARIMA), Classification (Logistic Regression, Random Forest, XGBoost), GenAI (LangChain, Hugging Face, RAG Pipelines), Deep Learning (TensorFlow, PyTorch), MLflow.

Analytics & Experimentation: A/B Testing, T-tests, Chi-Square, Bayesian Statistics, Hypothesis Testing, Customer Segmentation (K-Means, Decision Trees), RFM Analysis, Campaign ROI Analysis.

DevOps & Collaboration: Git/GitHub, Docker, CI/CD (Jenkins, GitHub Actions), JIRA, Confluence, Agile/Scrum, Kubernetes, Windows, Linux.

Education

University of North Texas	August 2023 – May 2025
<i>Master of Science in Data Engineering</i>	<i>Denton, Texas</i>

Projects

Sentiment Aware Recommendation System using Amazon Review Dataset

- Engineered a transformer based recommendation engine on Oracle Cloud Infrastructure (OCI), achieving 80%+ sentiment accuracy and scaling performance with PySpark, Airflow, and Snowflake.
- Developed interactive Power BI dashboards with real time sentiment insights, enabling product managers to refine recommendations, accelerate decisions by 35%, and enhance customer satisfaction.

Financial Market Data Analysis & Forecasting Platform

- Engineered a forecasting pipeline (Python, XGBoost, yfinance) that increased predictive accuracy by 15%, enabling analysts to cut portfolio risk and drive higher confidence trading decisions with a Sharpe ratio exceeding 1.2.
- Delivered Streamlit dashboards and FastAPI services, providing real-time forecasts that enabled stakeholders to adjust investment strategies proactively.
