PROFESSIONAL SUMMARY

Analytical and results-oriented Project Management professional with 2+ experience driving cross-functional initiatives in digital transformation, quality assurance, and process improvement. I am skilled in Agile project management, data analytics, and workflow optimization using tools like Jira, Smartsheet, Power BI, and SQL. Implemented no-code ML and generative AI to improve forecasting and automate reporting, driving faster decisions and measurable efficiency gains. Lean Six Sigma Green Belt with a track record of on-time delivery, streamlined reporting, and strong stakeholder alignment.

PROFESSIONAL EXPERIENCE

City of Boston, Boston, MA Apr 2025 - Present
Project Analyst (Quality Assurance Specialist)

- Facilitated cross-department collaboration during the CRM migration, aligning 12+ stakeholder groups through weekly syncs, clear documentation, and transparent RAID updates to ensure shared understanding of goals and timelines.
- Bridged communication between business owners, vendors, and technical teams, translating requirements into a prioritized Jira backlog and leading sprint reviews that reduced misaligned deliverables by 30%.
- Presented project status reports and risk summaries to senior leadership, turning complex technical updates from Asana and Jira into concise business insights that improved decision-making speed by 25%.
- Coordinated 5+ UAT cycles with 15+ cross-functional users, leading daily defect stand-ups and progress briefings to maintain transparency and deliver a zero-critical-defect go-live.
- Developed training guides, job aids, and communication plans for 40+ staff, collaborating with department leads to drive change-management for phased rollouts.

Entegris Inc., Billerica, MA Jan 2024 – Jun 2024
Project Manager Intern (Continuous Improvement)

- Coordinated cross-functional project activities across IT, manufacturing, and quality teams for a MES upgrade initiative supporting 3 U.S. manufacturing sites; tracked 50+ tasks through Smartsheet and Jira to ensure on-time completion.
- Streamlined PMO reporting by integrating Jira and Accolade data into a centralized dashboard using Power BI, reducing weekly status prep from 3 hrs. to 30 min and reducing management overhead by 72%.
- Maintained project documentation and meeting minutes improving issue visibility and cutting status-update turnaround time by 30%.
- Tracked project risks and mitigations, escalating blockers to senior PMs; contributed to early resolution of 4 critical issues, preventing schedule slippage during pilot rollout.
- Supported process standardization initiatives by documenting SOPs and visual 5S metrics, driving a 15–20% reduction in rework and cycle time for targeted production lines.

Pratik Packers, Indore, India Jun 2020 – Aug 2022
Associate Project Manager

- Orchestrated a 27% boost in on-time delivery by instituting weekly cross-functional standups, maintaining a live risk log, and assigning accountable owners synchronizing production, procurement, and dispatch under a unified execution plan.
- Engineered a 35% reduction in manual reporting errors by digitizing order and WIP tracking through Excel, creating a daily “single source of truth” for scheduling and inventory.
- Devised executive KPI dashboards with threshold-based alerting and cadence-driven updates, enabling same-day operational decisions and driving a 20% decrease in late orders.

PROJECTS

Intelligent Workflow Automation, AI & ML Solutions, MIT Professional Education May 2025 – Aug 2025

- Built a no-code predictive analytics workflow to identify process inefficiencies, improving operational forecasting accuracy by 18%.
- Designed a resource allocation recommendation system leveraging ML classification and clustering, enhancing team scheduling efficiency.
- Applied Generative AI and prompt engineering to automate performance reporting, reducing manual documentation effort by 40%.

SKILLS

- Project Management:** Agile, Scrum, Jira, Asana, MS Project, Stakeholder Management, Requirements Gathering, Change Management
- Technical:** SQL, PostgreSQL, MySQL, dbt, Power BI, Tableau, Power Query, Alteryx, Advanced Excel, Minitab, Power Automate
- Process Improvement:** SAP, S&OP, Root Cause Analysis Inventory Optimization, Lean Six Sigma, Value Stream Mapping
- Business & Strategy:** Product Management, Operations Management, Business Analytics, User Experience, Communication
- Certifications:** Six Sigma Green Belt (2024), MIT Professional Education – No-Code AI & Machine Learning (2025)

EDUCATION

Northeastern University Boston, MA
Master of Science in Engineering Management (Project Management Concentration), *GPA: 3.8/4.0* Sept 2022 - Dec 2024

Medi-Caps University Indore, India
Bachelor of Technology in Mechanical Engineering, *GPA: 3.7/4.0* Aug 2016 - May 2020
