SUMMARY

Results-driven SAP Transportation Management Consultant with 4+ years of expertise in optimizing logistics operations and improving supply chain efficiency. Proven success in enhancing freight planning, cost control, and shipment visibility while ensuring regulatory compliance. Experienced in streamlining processes and driving operational excellence for large-scale distribution networks.

WORK EXPERIENCE

Walgreens

SAP Transportation Management Consultant

Deerfield, IL

Jun 2025 – Present

- Directed transportation planning activities within SAP TM 9.6 and SAP S/4HANA, aligning route selection, carrier allocation, and load optimization for 9,000+ pharmacy locations, resulting in 18% improvement in on-time deliveries and reduced freight spend.
- Enabled end-to-end shipment visibility by linking SAP TM with SAP EWM and PI/PO middleware, supporting real-time tracking, automated freight settlement, and compliance for temperature-controlled pharmaceutical shipments.
- Formulated freight costing frameworks in SAP TM with dynamic rate management and vendor contracts, improving cost validation by 22% and driving data-backed negotiations through SAP Fiori analytics.
- Spearheaded transportation process enhancements using SAP TM, S/4HANA, and Lean Six Sigma, aligning inbound and outbound logistics flows to meet FDA/DEA regulations and achieving 98% compliance on controlled drug shipments.

UnitedHealth Group

SAP Transportation Management Consultant

Minnetonka, MN

Jun 2024 – May 2025

- Engineered transportation workflows in SAP TM 9.6 with SAP ECC (MM/SD/LE) alignment, enabling automated freight order creation and carrier allocation, which shortened pharmaceutical shipment cycle times by 25%.
- Established end-to-end planning and execution frameworks in SAP TM, utilizing SAP Event Management and EDI with 3PL vendors to enhance visibility, raising on-time delivery performance by 18%.
- Structured freight cost management and settlement processes leveraging SAP TM charge management and SAP PI/PO, ensuring accurate allocation for healthcare supply shipments and cutting cost variance by 12%.
- Orchestrated test execution and user enablement through SAP Solution Manager and UAT sessions, producing SOPs and training materials that elevated process adoption among procurement teams by 30%.

Accenture

Application Development Analyst

Bengaluru, IN

Oct 2020 – Aug 2023

- Configured and customized SAP TM 9.6 modules for order management, freight planning, and carrier selection, aligning transportation workflows with client's global supply chain strategy.
- Developed ABAP enhancements and BOPF objects to automate freight order creation and status updates, reducing manual intervention and improving on-time shipment tracking.
- Integrated SAP TM with SAP ERP and EWM via PI/PO and IDocs for seamless data flow of sales orders, deliveries, and freight settlement documents.
- Designed and executed test scenarios in SAP Solution Manager, performing unit, SIT, and UAT cycles to validate TM configurations and ensure end-to-end logistics accuracy.
- Implemented Fiori apps and UI5 extensions for freight order visibility and carrier performance dashboards, improving transportation analytics and operational decision-making.
- Coordinated with cross-functional teams in Agile sprints to deliver TM enhancements, ensuring compliance with SAP best practices and reducing freight cost variance through optimized planning strategies.

SKILLS

SAP Modules: SAP TM (Planning, Execution, Freight Settlement), SAP S/4HANA Logistics, SAP EWM, SAP ERP (SD, MM, LE)

Integration: SAP PI/PO, SAP CPI, IDocs, BAPIs, RFCs, OData, Web Services

Databases & Reporting: SAP HANA, SAP BW/BI, SAP Analytics Cloud (SAC)

Customization & Development: ABAP (Enhancements, BADIs, User Exits), BRF+, PPF Framework, SAP Fiori/UI5

Transportation Tools: Carrier Collaboration Portal (CCP), Yard Logistics, GIS/Mapping (HERE, ESRI)

Cloud & Platforms: SAP BTP, AWS/Azure (SAP Hosting)

Project Tools: Solution Manager, Jira, Confluence, HP ALM, TestRail

EDUCATION

Saint Louis University
Master of Science in Information Science

St. Louis, MO
Aug 2023 – May 2025

Sree Venkateswara College of Engineering
Bachelor of Engineering in Electronics and Communication Engineering

Nellore, IN
Aug 2017 – Jul 2021

CERTIFICATIONS

- Certification Course on SAP SD from Accenture
- SAP S/4HANA TM
