

ALAYNA ROMER

Atlanta, GA | 937-776-6652 | alayna.romer@gmail.com

PROFESSIONAL SUMMARY

Data-driven public health professional and Master's in Data Science candidate with 5 years of experience leading grant-funded initiatives in injury prevention, harm reduction, and tobacco control. Background in Excel, Python, R, SQL, and data visualization tools (Power BI & Tableau) for visualization and reporting. Brings applied domain expertise in injury prevention and population health in community, hospital, and government public health settings.

KEY SKILLS

Data Analysis & Visualization:

Tools: Excel, Power BI, Tableau, SPSS

- Exploratory data analysis (EDA), descriptive statistics
- Dashboard development & reporting
- Data storytelling & stakeholder communication

Programming & Data Management:

- SQL (joins, filters, data extraction & cleaning),
- Python (pandas, numpy, scikit-learn, matplotlib),
- R (tidyverse, ggplot2, statistical analysis)

Data Collection & Research Systems

- REDCap, survey design & validation
- EHR abstraction (Epic, Cerner Millennium)
- Data quality checks & documentation

Domain & Applied Skills:

- Program evaluation,
- Grant reporting & compliance standards
- Cross-sector collaboration
- Technical communication & presentations

PROFESSIONAL EXPERIENCE

ProMedica Russell J. Ebeid Children's Hospital

Toledo, OH

Pediatric Injury Prevention Specialist

July 2024 – July 2025

- Developed and implemented automated intake form with data collection workflows to support attendance tracking, utilization analysis and reporting efficiency.
- Analyzed geospatial and demographic datasets to identify high-risk populations and inform targeted injury prevention interventions.
- Tracked and evaluated patient safety metrics and injury outcomes to inform quality improvement efforts and align with state-level health performance goals.
- Built and maintained a Wix-based public education website with embedded forms and resources to support family engagement and data capture for reporting.

Greene County Public Health

Xenia, OH

Health Educator

April 2022 – June 2024

- Developed recurring analytical reports using logic functions to track grant performance, outreach engagement, and service delivery trends.
- Translated data requests from state funders and partners into validated deliverables, meeting all submission deadlines. Led implementation and evaluation of Ohio Department of Health Integrated Harm Reduction Grant, expanding naloxone distribution by 17% and installing 31 NaloxBoxes and 12 kiosks across the county.
- Managed a syringe service program at 3 different locations, increasing participation by 192% in 2023 and directed a new data collection and reporting system for naloxone and syringe service programs, enabling timely grant reporting and improved monitoring.
- Communicated analytical findings using data visualizations and summaries for state reporting, community partners, board of health, and grant funders.

Marshall Health

Clinical Chart Abstractor

Huntington, WV

March 2021 – October 2021

- Abstracted and validated data from 200+ cardiology charts weekly for migration to Cerner Millennium, ensuring high accuracy during EHR system transition.

Cabell Huntington Health Department

MPH Practicum Intern

Huntington, WV

January 2020 – May 2020

- Refined the county-level Community Health Assessment by through data visualization of 40+ data sets to explain any changing trends in socioeconomic indicators, environmental health, and chronic disease prevalence.
- Developed a 50-question wellness survey encompassing physical, social, emotional, and financial health dimensions – informing local health strategies.
- Supported the Covid-19 Response Call Center and trained incoming volunteers creating standardized guidelines for onboarding.

EDUCATION & TRAININGS

Eastern University, PA

Master of Science in Data Science

Online

Expected March 2026

- Completed coursework: Fundamentals of Data Science, Principles of Python Programming, Statistical Modeling, Data Manipulation, Data Analytics in R, Data & Database Management with SQL, Machine Learning Foundations, Information Visualization

Marshall University

Master of Public Health

Huntington, WV

May 2020

- 4.0 GPA | Emphasis on Global and Community Health

Xavier University

Bachelor of Science in Biology

Cincinnati, OH

May 2017

- 3.83 GPA | Dean's List all semesters | Phi Beta Kappa Honor Society Member
- Minors: Chemistry & Sociology

Selected Projects & Additional Training

- USTA Juniors Division Retention Analysis *May-June 2025*
 - Analyzed youth participation and retention rates
- Qualitative Data Analysis & Visualization course by Stephanie Evergreen *April 2024*
