Summary

Analytical professional with robust experience in data-driven process improvements and demand analysis. Demonstrated success in leveraging historical sales and operational data to optimize workflows and reduce costs, achieving measurable efficiency gains. Combines technical expertise in Excel, SQL, and predictive modeling with strong communication and stakeholder engagement skills. Currently pursuing advanced studies in business analytics, poised to support IT demand management and process optimization initiatives.

PROFESSIONAL SKILLS

- **Technical:** SQL, Tableau, Python (Pandas, NumPy), R, Advanced MS Excel, Big Data & Cloud Computing, Text Mining, Predictive Modeling, A/B Testing, AutoCAD, Statistical Analysis
- **Functional:** Data Analysis, Supply Chain Optimization, Demand Forecasting, Inventory Management, Process Improvement (Lean Six Sigma), Project Planning (Agile Methodologies), Operations Analytics, Market Research, Business Strategy

EXPERIENCE

HPCL Distributorship

May 2023 - Jul 2023

Assistant and Project Member

Jhansi, India

- Conducted detailed demand analysis using historical sales data and inventory turnover rates; utilized Advanced MS Excel for real-time stock monitoring, achieving 95% product availability and reducing holding costs by 10%.
- Leveraged customer purchasing trends and applied statistical analysis to design targeted sales campaigns, introducing data-backed pricing strategies that achieved a 20% revenue growth in six months.
- Identified process bottlenecks, redesigned workflows, and conducted staff training sessions to drive process improvement, boosting operational efficiency and increasing customer satisfaction by 15%.

P.B.C. Infrastructure

Jun 2020 - May 2023

Site Engineer and Project Supervisor

Lucknow, India

- Directed the execution of a \$5M infrastructure project by leveraging data analytics and Big Data & Cloud Computing tools to identify resource inefficiencies, optimize material usage, and achieve a 10% cost reduction.
- Enhanced stakeholder engagement by facilitating meetings with process owners and meticulously documenting workflows, which contributed to a 15% increase in client retention and secured additional contracts worth \$2M.
- Implemented rigorous timeline tracking and cost control measures using project management principles and Agile methodologies, ensuring projects were delivered on time and within budget to improve profit margins by 15%.

Central Public Works Department

May 2019 - Jun 2019

Site Engineer Trainee

Lucknow, India

- Inspected road projects, identified material flaws and workflow gaps, and enforced quality control measures, accomplishing a 10% improvement in quality and efficiency.

EDUCATION

WASHINGTON UNIVERSITY IN ST LOUIS, OLIN BUSINESS SCHOOL

Dec 2025

Master of Science, Business Analytics - Supply Chain

- **Coursework:** Database Design & SQL, Supply Chain Analytics, Big Data & Cloud Computing, Machine Learning for Business Insights, Operations Analytics, Revenue Management, Text Mining, Advanced Operations Strategy

HULT INTERNATIONAL BUSINESS SCHOOL

Aug 2024

Masters, International Business

- **Coursework:** Design Thinking for Innovation, Global Business Strategy, Business Insights Through Data, Digital Marketing Strategy, Financial Management, Project Planning & Execution

INSTITUTE OF ENGINEERING & TECHNOLOGY, Lucknow, Uttar Pradesh, India

Sep 2020

Bachelor of Technology, Civil Engineering

- **Coursework:** Structural Analysis, Construction Management, Transportation Engineering, Data Visualization & Analytics for Engineers, Environmental Engineering
