PROFESSIONAL SUMMARY

Detail-oriented Junior Data Analyst with a Master's degree in Business Analytics and hands-on experience working with structured and unstructured datasets. Skilled in SQL, Excel, Python, and BI tools including Power BI and Tableau. Experienced in data cleaning, exploratory data analysis, dashboard development, and performance metric reporting. Strong analytical thinker with the ability to translate data insights into actionable recommendations for cross-functional stakeholders. Authorized to work in the U.S. under OPT.

TECHNICAL SKILLS

- SQL (Data Extraction, Joins, Aggregations, Query Optimization)
- Python (Pandas, NumPy)
- Power BI & Tableau (Dashboard & Report Development)
- Microsoft Excel (Pivot Tables, Advanced Formulas, Data Analysis ToolPak)
- Data Cleaning & Validation
- Exploratory Data Analysis (EDA)
- Data Modeling & KPI Development
- MySQL, PostgreSQL, SQL Server (Basic Exposure)
- Statistical Concepts (Regression, Hypothesis Testing, Descriptive Statistics)

ANALYTICS EXPERIENCE

Data Analyst – Academic & Internship Projects | 2024–Present

- Collected, cleaned, and validated large structured datasets to ensure data integrity and accuracy.
- Developed interactive dashboards in Power BI to visualize trends, KPIs, and performance metrics.
- Wrote SQL queries to extract and manipulate data from relational databases.
- Performed exploratory data analysis to identify trends, patterns, and anomalies.
- Built performance metrics and basic predictive models to support decision-making.
- Documented data processes and maintained reporting standards across projects.
- Collaborated with cross-functional teams to communicate findings to technical and non-technical stakeholders.

EDUCATION

Master of Science in Business Analytics – Trine University | Expected May 2027

Master of Science in International Business Management – Northumbria University
