

SUMMARY

Analytical and results-oriented Data Analyst with proven experience in transforming complex datasets into clear, actionable insights that drive strategic decision-making. Skilled in designing and implementing data strategies, delivering both batch and real-time analytics workflows. Adept at aligning data initiatives with business goals and translating technical findings into user-friendly insights. I am a collaborative problem solver passionate about leveraging data to optimize performance and foster innovation.

TECH SKILLS

SQL, Python, PySpark, Terraform, Databricks, Git, Power BI, Data Modelling, Data Engineering

RELEVANT EXPERIENCE:

Unilode Aviation Solutions, Remote | Data Analyst, Business Analytics Support 2023 - Present

- Collaborated with cross-functional teams to develop reproducible analytical reporting solutions.
- Built data models for internal and external dashboards, replacing routine reports and improving KPI tracking.
- Conducted KPI tracking and root-cause analysis, generating actionable insights to enhance operational efficiency.
- Worked with management to enhance dashboards, ensuring real-time visibility for internal and external stakeholders
- Designing, developing and delivering both batch and real time(streaming) analytics pipelines.
- Streamlined analytics applications, improving data accessibility and reporting transparency.
- Partnered with IT to automate Enterprise Data Warehouse (EDW) reports in Databricks.
- Contributed to analytics product development, enabling advanced reporting and strategic insights.

Unilode Aviation Solutions, Hybrid | Digital Implementation Specialist / Inspector 2017 – Jan 2023

- Led the Americas digitization initiative, achieving 60% completion of a 140,000+ Unit Load Device (ULD) digitization target and deploying 200+ IoT readers at key airports and warehouses.
- Reduced ULD losses by 55%, with a projected 80% reduction upon project completion.
- Enhanced resource utilization by 30%, optimizing inventory management and operational performance.
- Performed data analysis on reader and workflow data to improve labor and asset efficiency.
- Acted as the primary liaison for implementation and communication between Unilode, airlines, and airport partners across the Americas.
- Developed and automated visual dashboards using Excel and Jira, streamlining reporting and improving performance visibility.
- Produced and distributed strategic reports for various stakeholders to track progress and align on key project milestones.
- Conducted training and workshops for over 120 staff, agents, and partners, ensuring smooth adoption of new digital processes.

EDUCATION

Lewis University, Romeoville, IL | MSc | Data Science – May 2023
