PROFESSIONAL FOCUS

I am intentionally seeking a hands-on, entry-level clinical data analyst role where I can focus on day-to-day data processing, validation, and analysis work. After many years in highly complex environments, I value individual contribution, strong data quality, and continuous learning over seniority or title, and I am fully aligned with the scope, responsibilities, and compensation of an entry-level position.

SKILLS

SAS (Base, Macro, SAS/CONNECT, SAS/GRAPH)

SDTM, ADaM, CDISC Standards, Define.xml, Pinnacle 21

TLFs, Regulatory Submissions, FDA Submissions

Clinical Trial Data Programming, Oracle (SQL*Plus),

UNIX, Mainframe (CMS/VM, TSO), MS Office

PROFESSIONAL EXPERIENCE

Statistical Programmer

Infocus Clinical (CRO) – Remote

October 2023 – July 2024

Converted clinical trial data from eCRFs to SDTM datasets.

Developed and maintained SAS programs to create SDTM and ADaM datasets and TLFs.

Referenced and validated Define metadata files for SDTM and ADaM dataset creation.

Assisted in development of Define metadata files for submissions.

Performed QC of SDTM and ADaM datasets and TLFs in accordance with client standards.

Developed dataset specifications for SDTM and ADaM.

Interpreted Pinnacle 21 validation results and resolved issues.

Created Define.xml files for FDA submissions and related regulatory tasks.

Adhered to CDISC standards and supported ad-hoc programming requests.

Therapeutic Area: Ophthalmology.

Statistical Programmer

Fortrea Inc. (CRO) – Remote

April 2023 – August 2023

Developed and validated SAS programs to create SDTM datasets.

Ensured compliance with CDISC standards and client-specific requirements.

Adhered to AstraZeneca programming standards.

Supported ad-hoc programming and data requests.

Therapeutic Area: Inflammation & Immunology.

Clinical Data Analyst / Statistical Programmer

AbbVie (formerly Abbott Laboratories) – Statistics Department LabCorp Consultant

Parsippany, New Jersey, Remote since April 2009

May 2003 – April 2023

Developed and maintained SAS programs for SDTM and ADaM datasets, TLFs, and FDA regulatory submissions supporting multiple Phase II–III programs.

Reviewed, validated, and assisted in development of Define metadata and Define.xml files.

Performed QC of SDTM and ADaM datasets and TLFs in accordance with CDISC and client standards.

Developed SDTM and ADaM specifications and reviewed SAPs and TLF shells.

Supported data transfers and data conversions across platforms.

Selected Hands-On Experience

- Performed hands-on processing, cleaning, and validation of clinical trial datasets, working directly with raw and derived data from EDC systems and external sources.
- Conducted data quality checks and reconciliations to identify missing, inconsistent, or anomalous values, documenting issues for follow-up and correction.

- Assisted with mapping clinical data to standardized formats, including exposure to CDISC and SDTM structures, ensuring consistency across study datasets.
- Generated routine data listings, summaries, and tables to support ongoing clinical studies and internal review.
- Performed basic statistical analyses and exploratory data review to identify trends, outliers, and potential data issues.
- Collaborated with team members in data management and biostatistics to support accurate and timely data delivery.
- Followed SOPs, GCP guidelines, and regulatory requirements when handling and analyzing clinical data.
- Maintained clear documentation of data handling steps, validation checks, and issue resolution.

Therapeutic Area: Inflammation & Immunology.

Programmer Analyst

Schering-Plough ITG – Healthcare Analytics ASG Inc. Consultant Kenilworth, New Jersey

June 2001 – October 2001

Provided programming support for a publication in the Journal of the American Medical Association (JAMA).

Extracted asthma and allergy data from healthcare plan databases based on study criteria.

Created case/control statistical analysis datasets.

Generated reports and graphical outputs for statistical analysis.

Therapeutic Area: Asthma / Allergy.

Programmer Analyst

Gilead Sciences – Data Management ASG Inc. Consultant

Foster City, California

January 2001 – April 2001

Developed and executed data quality check program libraries.

Loaded source data received from CROs into internal databases.

Supported data validation and quality assurance activities.

Therapeutic Area: Asthma / Allergy.

Manager of Analytical Processes

Schering-Plough ITG – Healthcare Analytics ASG Inc. Consultant - Kenilworth, New Jersey

May 1999 – December 2000

Performed ad-hoc descriptive analyses to support disease management programs.

Prepared databases for advanced analytics, including data reformatting and platform transfers.

Executed analytical procedures supporting predictive model development.

Developed and modified SAS macros as needed.

Supported Phase IV studies.

Therapeutic Area: Asthma / Allergy.

Clinical Data Coordinator / SAS Programmer

Schering-Plough – Clinical Data Management ASG Inc. Consultant, Kenilworth, New Jersey

April 1996 – April 1999

Programmed SAS efficacy, demographic, and safety data listings.

Prepared and maintained clinical study databases.

Executed Clinical Inquire validation and edit systems for data cleaning.

Supported Case Report Form (CRF) development.

Therapeutic Areas: Asthma / Allergy and Oncology.

Clinical Data Analyst / SAS Programmer

Ciba Pharmaceuticals Division – Biostatistics Department

Summit, New Jersey

June 1990 – March 1996

Programmed SAS queries against Oracle tables and performed data file conversions.

Created analysis datasets and performed data manipulation and quality checks.

Generated statistical summary tables, listings, and graphs for clinical trial reports.

Supported in-house laboratory reporting systems.

Executed randomization programs and supported double-blind label generation.

Served as departmental resource for computer-related issues.

Therapeutic Areas: Central Nervous System and Cardiovascular.

EDUCATION

Master of Science in Applied Mathematics

Fairleigh Dickinson University, Madison/Florham Park, New Jersey

1994 – 1998 | GPA: 3.94

Bachelor of Arts in Mathematics - Minor in Physics

Trenton State College (The College of New Jersey), Trenton, New Jersey

1985 – 1989 | GPA: 3.71 overall | 3.8 major | 4.0 minor

HONORS & AFFILIATIONS

Senior Mathematics Achievement Award, Memorial Scholarship Award for Mathematics, William Goldstien Modern Algebra Award, Member of Pi Mu Epsilon (Honorary Mathematics Society), Member of Sigma Pi Sigma (Honorary Physics Society)
