Long Grove, Illinois

SKILLS

JavaScript | HTML | CSS | React | TypeScript | Python
React | NumPy | MATLAB | Node.js | Express.js |
RESTful API | Git | SQL | NoSQL |
Sequalize | MongoDB | Excel | EViews |
AWS | Jupyter Notebook | Word | R | Tableau

EDUCATION

University of Illinois at Urbana - Champaign

- Master of Computer Science 2024 - present
- Bachelor of Arts in Economics 2017 - 2021
- Minor in Computer Science 2017 - 2021

Bethel College of Technology

- Certification in FS Development 2023

LERN

- Certification for Accounting and Finance for non-Financial Managers 2023

INTERESTS

- Cellist
- Percussion
- Volleyball
- Custom Mechanical Keyboards

TECHNICAL EXPERIENCE

Data Analyst | Health is Wealth

August 2022 - May 2023

- Ran Hypothesis tests through Statistical Analysis
- Cleaned/Visualized data using R/Tableau/Python
- Wrangled datasets using Libraries like pandas and matplotlib
- Familiar with both Agile and Scrum Workflow
- Calculated Forecasts and Future Events using Eviews
- Ran Multiple Linear Regression, corrected for Statistical Assumptions, and Presented Conclusions and Finding using Tableau, Python, and R
- Utilized both Relation and Non-Relational Databases like MongoDB and MySQL. Used in tangent with Search Queries and JSON-like object schema building.
- Modeled Step-wise Regressions using Machine Learning algorithms through R to find possible legitimate predictor variables and eliminate non-essential factors.
- Dabbled with Big Data through MapReduce in Python, running a Virtual Machine with AWS, and analyzing large datasets with PySpark.

Software Engineer | Good Eats

August 2022 - April 2023

- With Apps made through JavaScript, was able to debug and experiment with different possibilities of functions like motion control and different button functionality.
- Designed and coded UI so that users would easily be able to access functions and numbers to reduce awkward design options and confusion.
- Built MongoDB Schema enabling 200+ interactions with error handling; decreased troubleshooting time by more than 20%
- Implemented both Identification and Authorization for security and data confidentiality.
- Designed Front-End Ionic framework to display alerts, Access native Camera functionality, and pull geological information
- Emulated user experience through Android Studio to see front-end implementation.
- Debugged and contributed optimizations through android device emulators.

Job Experience

Royal Family Real Estate

2023 - Current

Realtor and Office Manager

- Coordinated contract-to-close: inspection, attorney review, title, HOA docs, and clear-to-close; 0 missed deadlines.
- Run daily operations for a 10 agent brokerage supporting \$50M+ annual sales volume.
- Oversee 40-60 contracts/month from signed listing through close; manage disclosures, escrow receipts, COOP, and compliance checklists
- Reconciled trust/operating accounts monthly; coordinated E&O renewal and policy compliance. Negotiated vendor contracts (printing, signage, cleaning, transportation)
- Front-desk, phones, contract packets, lockbox and signage inventory; prepared weekend open-house kits and marketing flyers.

Avantara Post-Hospital Rehabilitation

2021 - 2023

Part Time Dietary Aide

- Provided support for residents through food preparation, kitchen maintenance, food delivery, and kitchen staff synergy
- Facilitated food and supply orders from both culinary and medical teams to kitchen for clarity and responsiveness.
- Experienced hands-on training with CNAs, Chefs, residents, and coworkers.
- Improved Oral and written communication, problem solving, quick decision making, and customer service skills through interpersonal relations
