

Marcus Brown

Full Stack Developer

Spartanburg, SC | (864) 524-7473 | dekuworks1@gmail.com

github.com/DekuWorks | linkedin.com/in/marcus-brown-6b1643259

Full Stack Developer with 8+ years of experience building secure, scalable web and mobile applications using React, .NET, and Azure. Skilled in optimizing APIs, integrating AI automation, and deploying CI/CD pipelines to deliver accessible, high-impact software. Experienced working in Agile/Scrum teams with cross-functional collaboration.

WORK EXPERIENCE

Lead Developer – 241RunnersAwareness.org (Project-Based Engagement)

Oct 2024 – Present

Designed and led development of a HIPAA-compliant healthcare-adjacent platform serving 5K+ users as part of a scoped, milestone-driven engagement with defined phases and timelines. Built AI-ready DNA tracking features, optimized Azure APIs (reducing latency by ~70%), and implemented secure multi-role access using JWT/OAuth.

Founder / Full Stack Developer – DekuWorks LLC (Contract & Project-Based)

Mar 2024 – Present

Led scoped, project-based SaaS and client engagements with defined timelines and deliverables. Built SaaS products with AWS/.NET 8, integrated CI/CD via GitHub Actions & Docker, and managed HIPAA-aligned security and compliance.

Associate Full Stack Developer – Amptier (Fixed-Term Contract)

Jun 2025 – Oct 2025

Developed EMS dashboards (React + C#), resolved analytics performance issues, and deployed the RexusOps360 EMS platform on AWS using ASP.NET Core.

IT Specialist (Part-Time) – Marcus D. Brown Funeral Home

Jan 2011 – Present

Managed website updates, backend data, IT systems, and backups.

PROJECTS

241RunnersAwareness.org – Improved API performance by 70% using async caching and delivered real-time tracking and AI-powered alerting features used in production.

CORE SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React, React Native, Redux Toolkit, TailwindCSS, Vite, PWA

Backend: C#, ASP.NET Core 8, Node.js, Python, Firebase, REST APIs, Entity Framework

AI/Automation: OpenAI API, production-facing LLM features, structured prompt handling, validation, logging

EDUCATION

Western Governors University – B.S. Computer Science (Expected Dec 2026)

Full Sail University – Application Development Fundamentals Certificate, GPA 3.66 (2025)

Codecademy – Front-End Engineer Certificate (2025)
