Columbus, OH

CAREER SNAPSHOT

Detail-oriented and analytically inclined aspiring data analyst and engineer with expertise in data collection methods, data wrangling and preprocessing using Python (Pandas, NumPy), SQL and MS Excel. Proficient in exploratory data analysis (EDA) to identify trends, outliers and correlations using statistical techniques. I am an expert at designing and implementing data visualization solutions using Tableau, Power BI, Matplotlib and Seaborn to create dynamic dashboards and reports that facilitate strategic business decisions.

SUMMARY

- Proficient in **SQL (MySQL, PostgreSQL, Oracle)** for data extraction, database joins and aggregation from relational databases to support business intelligence reporting.
- Skilled in **Python (Pandas, NumPy, Matplotlib, Seaborn)** for data cleaning, transformation and visualization to uncover actionable insights.
- Experienced in building interactive dashboards using **Tableau** and **Power BI**, enabling real-time performance tracking and stakeholder decision-making.
- Applied **Excel (VLOOKUP, PivotTables, Power Query)** for fast ad hoc analysis and dynamic reporting.
- Used **statistical techniques** (correlation, regression, hypothesis testing) to validate business hypotheses and inform strategic initiatives.
- Hands-on experience on self-driven projects demonstrating data analysis workflows from extraction to presentation.
- Strong ability to explain complex data concepts to peers, stakeholders and non-technical audiences through storytelling and step-by-step walkthroughs.

PROJECTS

STUDENTS SOCIAL MEDIA ADDICTION – Exploratory Data Analysis, Python, Pandas, NumPy, Seaborn, Matplotlib

June 2025

- Analyzed student survey data using **Python** to uncover behavioral trends related to social media usage and its impact on academic performance and well-being.
- Utilized **Pandas** and **NumPy** for efficient data cleaning and transformation, Seaborn and Matplotlib applied to visualize trends and correlations.
- Identified key insights such as negative correlations between Addiction score and Mental health and visualized findings through heatmaps, bar plots, and distribution graphs.

AI JOB MARKET & SALARY TRENDS – Exploratory Data Analysis, SQL, Tableau

May 2025

- Analyzed AI job market data using **SQL** to extract and aggregate salary trends by job title, experience level, employment type and location.
- Loaded and designed an interactive **Tableau dashboard** to visualize key insights such as average salaries, demand for AI roles, and top-paying regions.
- Through optimized SQL queries and reusable dashboard templates, reduced manual reporting time by 50%.

HOSPITAL PATIENTS' ANALYSIS – SQL

April 2025

- Utilized **SQL** to extract data from 4 different related tables from Hospital databases using **JOIN** and **CASE**
- Transformed and filtered data by using aggregating and filtering function to improve reporting process.
- Improved the accuracy of patient data reports by 30% through better database design and query optimization.

- Created an interactive **Excel** dashboard to track coffee sales across multiple regions, products and time periods.
- Used PivotTables and slicers to enable dynamic filtering by product type, sales region, and date range.
- Automated data updates using formulas (VLOOKUP, IF, SUMIFS) and structured tables to ensure consistent reporting.
- Improved reporting efficiency by 30% by replacing manual reports with a real-time, visually intuitive dashboard.

PROFESSIONAL EXPERIENCE

Customer Service Associate – Kroger, Columbus, OH, United States

Sep 2025 - Present

- Answer questions about products, promotions and store policies.
- Strive to resolve issues to the customer's satisfaction.
- Handle customer complaints with patience and professionalism.
- Ensure compliance with Kroger's policies on refunds and exchanges.
- Collaborate with other associates and management to ensure smooth operations.
- Demonstrate Kroger's values of respect, honesty, integrity, diversity, inclusion and safety.

Assistant Manager - IDBI Bank LTD, Mumbai, INDIA

Aug 2019 – May 2022

- Assist customers with account opening, deposits, withdrawals and other routine banking services.
- Provide guidance and resolve customer queries on financial products such as savings accounts, fixed deposits, loans and credit facilities.
- Evaluate loan applications for retail, corporate and SME clients.
- Monitor transactions for fraud prevention and regulatory compliance. Ensure adherence to Know Your Customer (KYC) and Anti-Money Laundering (AML) guidelines.
- Support sales of banking products such as insurance, investment plans and credit cards. Assist in achieving branch targets for deposits, advances and cross-selling.
- Ensure compliance with RBI regulations, internal policies and audit requirements.

SKILLS

- SQL (SQL Server, MySQL, PostgreSQL)
- Python (Pandas, NumPy, SciPy, Matplotlib), PyCharm, Jupyter Notebook
- Microsoft Power BI
- Tableau
- Excel (VLOOKUP, Conditional Formatting, Pivot Tables)

CERTIFICATIONS

- Python for Data Science - [IBM](#)
- Data Analytics Professional - [Google](#)
- Analyzing and Visualizing Data - [Tableau](#)
- Data Analytics Essentials - [Cisco](#)
- SQL - [Hacker Rank](#)

EDUCATION

- **Bachelor of Technology (B. Tech) in Computer Science and Engineering (CSE)**
Jyothishmathi Institute of Science and Technology, Affiliated to JNTUH, Telangana, INDIA

May 2017
