PROFESSIONAL SUMMARY

Results-driven Data Analyst with 5+ years of experience in data visualization, business intelligence, and data-driven decision-making. Proficient in SQL, Python, Power BI, Tableau, and Excel, with a strong background in financial and healthcare analytics. Skilled in transforming raw data into actionable insights, optimizing reporting workflows, and enhancing data accuracy. Seeking to leverage analytical expertise and technical skills to contribute to data-driven business strategies.

TECHNICAL SKILLS

Programming & Querying: SQL (Advanced), Python (Pandas, NumPy, Scikit-learn), R, DAX, M Query
Data Visualization & BI Tools: Power BI, Tableau, Excel (Advanced PivotTables, Macros, VBA), SSRS, Looker Studio
Databases & Cloud: MySQL, PostgreSQL, SQL Server, AWS (S3, Redshift, QuickSight), Microsoft Azure, Snowflake
Data Processing & ETL: Alteryx, SSIS, Python ETL pipelines, data modeling, data warehousing concepts
Statistical & Analytical Methods: Regression analysis, A/B testing, forecasting, data mining, hypothesis testing
Project Management & Tools: Agile/Scrum, Jira, Confluence, Git, GitHub, Azure DevOps, Trello
Soft Skills: Problem-solving, critical thinking, cross-functional communication, teamwork, attention to detail, presentation skills

PROFESSIONAL EXPERIENCE

DATA ANALYST

SOFI – SAN FRANCISCO, CA | OCT 2023 – PRESENT

- Developed and automated 15+ interactive Power BI dashboards with DAX calculations, improving financial reporting efficiency by 30% and enabling real-time tracking of key performance indicators for stakeholders.
- Conducted in-depth analysis of customer financial behavior using complex SQL queries and Python libraries, identifying key trends that contributed to a measurable 12% increase in overall product engagement metrics.
- Collaborated with cross-functional product and finance teams to define critical KPIs and create standardized reporting frameworks, ensuring consistency and data governance across all departmental dashboards.
- Built and validated predictive models using regression techniques to forecast loan default risks, enhancing risk assessment accuracy and supporting proactive, data-driven decision-making for the underwriting team.
- Streamlined and documented ETL processes using Alteryx and Python scripts, reducing weekly data preparation time by 25% and significantly improving overall data accuracy and reliability for monthly reports.
- Presented clear, data-driven insights and strategic recommendations to senior management, enabling operational adjustments that directly increased department operational efficiency by 18% over two quarters.
- Optimized complex SQL queries and refined database indexing strategies, which reduced critical report generation time by 40% and improved overall data warehouse system performance and responsiveness.

DATA ANALYST

GOHEALTH – CHICAGO, IL (HYBRID) | JAN 2021 – SEP 2023

- Designed and deployed 10+ comprehensive Tableau dashboards to monitor sales funnels and customer engagement metrics, resulting in a 20% improvement in data accessibility and self-service for the sales team.
- Analyzed large-scale healthcare claims data using advanced SQL queries and join operations, uncovering critical insights that reduced claim processing errors and discrepancies by a notable 15% annually.
- Partnered with marketing teams to develop and implement customer segmentation models using clustering techniques, which increased targeted campaign effectiveness and lead conversion rates by 22%.
- Automated manual monthly reporting processes by building Python scripts and Excel VBA macros, saving over 20+ hours of manual effort per month and minimizing human error in recurring financial reports.
- Conducted rigorous A/B testing on website user interaction flows and landing pages, leading to a data-informed website redesign that increased customer conversion rates by 10% within a six-month period.

EDUCATION & CERTIFICATIONS & TRAINING

Bachelor of Commerce (B.Com)

A.V. Patel Commerce College – Bilimora, Gujarat, India

- Microsoft Power BI Data Analyst Professional Certificate – New Jersey, USA
- Data for Analysis with Microsoft Excel – Microsoft (Course)
- Power BI Data Analyst (Training/Certificate)
