

SAIPRIYA MORAVANENI

Celina, USA 75009 • 972-824-9396 • saipriyamoravaneni@gmail.com

Professional Summary

Results-driven Senior Data Analyst with 4+ years of experience in data analytics, business intelligence, and data engineering. Proficient in SQL, Python, R, Tableau, Power BI, Databricks, and PySpark, with expertise in ETL development, cloud computing, and big data processing. Skilled in statistical modeling, machine learning, and data visualization to drive business insights. Strong background in automating ETL pipelines, optimizing database performance, and integrating diverse data sources using Google BigQuery, Looker, and Domo. Adept at Agile methodologies, Jira, Confluence, and CI/CD pipelines, with excellent problem-solving, stakeholder communication, and presentation skills.

Technical Skills

- **Programming Languages:** Python, R, SQL, UNIX Shell Scripting, VBA, XML, SAS
- **Data Analytics & Visualization:** Tableau, Power BI, Excel, Alteryx, Looker, Adobe Analytics, MS Access, SSMS, Domo, Power Automate, SharePoint, QlikView
- **Big Data & Cloud Computing:** Databricks, PySpark, Azure Synapse, Snowflake, AWS (S3, Redshift), Azure (Data Factory, SQL Database, Data Explorer)
- **Databases & ETL:** MySQL, SQL Server, Oracle, Teradata, MongoDB, SSIS, Azure Data Factory, Talend, Data Warehousing, SAP S4
- **Machine Learning & Statistical Analysis:** Regression, Pattern Recognition, Clustering, Hypothesis Testing, Experiment Design
- **Data Engineering & Workflow Automation:** Snowflake, Apache Airflow, SAP, dbt, MS Visio, Jira, Confluence
- **Frameworks & Methodologies:** Waterfall, Iterative, Lean, Kanban, Agile SDLC
- **Soft Skills:** Problem-Solving, Team Collaboration, Stakeholder Communication, Presentation Skills

Work Experience

Senior Data Analyst

11/2023 to Current

Regions Financial Corporation – Dallas, USA

- Automated reporting workflows and optimized SQL scripts, improving reporting efficiency by over 30% and streamlining data processing across teams using **SQL, Python, and Power BI**.
- Conducted a detailed review of **database objects** and enhanced **schema design**, improving **SQL Server and MySQL** query performance by 20%.
- Designed and implemented dashboards in **Tableau, Power BI, and Looker**, providing actionable insights to 50+ stakeholders, including senior leadership.
- Developed and optimized **ETL workflows** using **SSIS, Talend, and Azure Data Factory**, ensuring seamless data integration across platforms.
- Managed SharePoint-integrated reports and automated processes using **Power Automate**, streamlining document accessibility for cross-functional teams.
- Implemented **machine learning techniques** like clustering and regression to improve data-driven decision-making.

Senior Data Analyst
Liberty Mutual – Dallas, USA

12/2022 to 10/2023

- Conducted extensive **data profiling and quality assessments**, standardizing data from multiple sources with **Python, R, and SQL**, improving reliability by 40%.
- Designed 20+ interactive dashboards in **Google Data Studio, Tableau, and QlikView** to visualize KPIs and improve business insights.
- Automated **ETL workflows** using **Python, SSIS, and dbt**, reducing manual intervention by 50%.
- Integrated multiple data sources into **Domo and Adobe Analytics**, enhancing reporting capabilities.
- Developed advanced **CI/CD pipelines** for SQL-based data transformations, ensuring smooth deployment across cloud platforms like **AWS Redshift and Azure Synapse**.
- Conducted **hypothesis testing and statistical analysis** to support business forecasting models.
- Developed **Source to Target Mapping (STM)** for multiple projects, ensuring seamless data migration.

Data Analyst
Sun Pharmaceutical Industries Ltd – Mumbai, India

05/2021 to 07/2022

- Developed and optimized **SQL queries, stored procedures, and NoSQL (MongoDB) datasets**, enhancing performance for high-volume transactions.
- Built advanced **Power BI models** that consolidated **CRM, ERP, and third-party data**, improving forecasting accuracy by 20%.
- Created **machine learning models** for **pattern recognition and clustering**, improving customer segmentation.
- Designed and deployed **ETL pipelines using SSIS and Apache Airflow**, integrating data from over 10 sources.
- Developed **Azure Data Factory workflows** to automate data movement across cloud platforms.
- Managed **Jira and Confluence** for cross-functional project tracking and Agile development.

Programmer Analyst
Jio Mart – Mumbai, India

03/2020 to 04/2021

- Designed real-time dashboards in **Tableau and Power BI**, optimizing inventory and sales management across 30+ business units.
- Automated Excel-based reports using **VBA and advanced Excel functions (VLOOKUP, INDEX MATCH, PivotTables)**, reducing manual reporting time by 40%.
- Cleansed and standardized datasets using **Python (Pandas, NumPy, SciPy) and SQL**, addressing 95% of data integrity issues.
- Developed **ETL packages using SSIS**, integrating data from flat files, APIs, and **Teradata**.
- Built and optimized **Snowflake-based data warehousing solutions**, enabling high-speed analytics for large datasets.
- Created **UNIX shell scripts** for automated data processing tasks.

Education

Master of Science: Information Science, 2024
The University of Texas at Dallas - Richardson, TX
