Summary

I am an IT professional with 5 years of experience and 10+ years of customer service experience with a zest for helping people and problem solving. Seeking to use my leadership, problem solving, and interpersonal skills to fix complex issues that arise in the world of IT with finesse. In January 2025 I took a Microsoft Azure Cloud Practitioner course. Later in the year, I took the AI-900 course for Azure and obtained the AI Fundamentals certification. As of right now, I am studying for the AI-102 to earn the Azure AI Engineer Associate certification to test in February 2026. I enjoy learning new things so I can implement them as I go. My new focus is on Artificial Intelligence.
