WORK EXPERIENCE

INOVA Healthcare/ Apex Systems

Sep. 2025 – Present

Data Specialist

Fairfax, VA

- INOVA Healthcare is a leading healthcare provider in Northern Virginia, known for its comprehensive medical services and community commitment.
- Support a large-scale healthcare system integration initiative by entering, validating, and maintaining badge and access data within CCure 9000.
- Ensure accurate application of role-based access and clearances, directly impacting operational access rates and compliance metrics.
- Improve reporting efficiency by identifying workflow bottlenecks and standardizing data entry processes, reducing turnaround time for badge creation by 20%.
- Collaborate with hospital staff and project leadership to resolve discrepancies and maintain high data integrity standards.
- Contribute to operational reporting by tracking progress metrics and supporting leadership updates during rollout.

Capital One

Sep. 2022 – Jul. 2024

Data Process Manager

McLean, VA

- Capital One is a top 10 US bank, known for innovation in technology-driven banking solutions and financial services.
- Built and maintained recurring and ad hoc reports to track operational performance, throughput, and risk metrics.
- Extracted, validated, and analyzed data from multiple enterprise systems to ensure accuracy and consistency.
- Developed executive-ready dashboards and PowerPoint decks, translating complex data into clear insights for stakeholders.
- Partnered with cross-functional teams to define reporting requirements and improve data-driven decision-making.
- Identified data quality gaps and process inefficiencies, contributing to continuous improvement initiatives.
- Automated reporting processes, decreasing manual efforts by 40%.

Harris Teeter

Oct. 2018 – Feb. 2020

Store Accountant

Manassas, VA

- Harris Teeter is a Southern and Mid-Atlantic grocery chain, providing quality products and services for local communities.
- Prepared and analyzed financial reports supporting store-level performance, forecasting, and operational reviews.
- Reconciled financial data ensuring accuracy in internal reporting and budget tracking.
- Supported leadership by translating financial and operational data into summaries for decision-making.
- Maintained detailed documentation to support audits and compliance.
- Balanced multiple reporting deadlines while ensuring accuracy across all deliverables.
