Summary

Tech-savvy Data Analyst with experience in analyzing large datasets to drive business decisions, with hands-on skills. Adept at bridging the gap between technology and business strategy, combining technical expertise with strong analytical thinking to support data-driven decision-making. Passionate about leveraging data to solve real-world problems and drive organizational success.

Education

Bhoj Reddy Engineering College for Women, Hyderabad, India

Aug 2019 – Jul 2023

Bachelor of Technology in Electronics and Communication Engineering

CGPA: 8.19

Webster University, San Antonio, USA

Aug 2023 – Jul 2025

Master's in Information Technology and Management

CGPA: 3.7

Experience

ShrinQ Consulting Group Inc.

Jan 2023 – Jun 2023

Data Analyst Intern

Hyderabad, India

- * Built automated SQL queries to extract and transform sales data, reducing manual reporting time 50%. Created interactive dashboards in Tableau to visualize customer trends, which were adopted by the marketing team for campaign planning.
- * Cleaned and merged large datasets using Python (pandas, NumPy) to support ad-hoc analysis and weekly reporting by 30%.
- * Assisted in testing analysis for product features, contributing to an improvement of 25% in user engagement.

Webster University

Jan 2024 – Present

Data Analyst, Research Assistant

San Antonio, Texas

- * Conducted in-depth data analysis on student performance and engagement trends using Python and SQL to support institutional research.
- * Developed dashboards using Power BI to visualize KPIs for academic departments, improving reporting efficiency by 25%.
- * Cleaned and processed large datasets from learning management systems to generate actionable insights for curriculum improvement. Collaborated with faculty to design research models and automate data pipelines for ongoing academic studies.

Projects

Zillow House Value Prediction | Python (Pandas, Scikit-learn), SQL, Power BI, Excel

Dec 2024

- * Executed data cleaning and feature engineering on 90,000+ Zillow records using Python, SQL, and Excel; uncovered key price drivers through in-depth EDA, enhancing model input quality.
- * Engineered and optimized regression models (Random Forest, XG Boost) in Scikit-learn with an R^2 of 0.88; designed Power BI dashboards that simplified pricing analysis workflows by 50%.

Robust Zero Watermarking Algorithm Based on Audio Beats | Python, MATLAB, Image processing

Jul 2023

- * Developed a robust zero watermarking technique for audio signal authentication to ensure data integrity and ownership verification. Leveraged beat-based temporal features to embed imperceptible watermarks without altering the original audio signal.
- * Validated algorithm performance under various audio signal attacks (e.g., noise addition, compression, resampling), demonstrating strong resilience and robustness. Conducted experimental analysis using MATLAB/Python to benchmark against existing methods, achieving improved accuracy in integrity checks.

Underground Cable Fault Detection Based on IoT | IoT, Embedded systems

Dec 2022

- * Designed an IoT-based system to detect underground cable faults using Ohm's Law by measuring resistance variations to pinpoint fault locations. Integrated microcontroller (e.g., Arduino/ESP8266) with sensors, LCD, and LED indicators to visually display fault position in real-time.
- * Developed a web-based interface to remotely monitor cable health, enabling efficient fault tracking and maintenance.

Technical Skills

Languages: SQL, Python (pandas, NumPy, matplotlib)

Tools: Tableau, Power BI, Excel (Power Query, Pivot Tables), Git

Cloud Platforms: Cloud/ETL: AWS (S3, Athena)

Involvement and Achievements

- * Received a certificate as a part of participating in Embedded workshop from Embedded Solutions, Hyderabad, India.
- * Participated in technical seminars and networking events focused on data analytics, IoT, and AI innovation.

Certifications

- * Received a certificate of accomplishment in **SQL (advanced)** from **Hacker rank skill certification test**.
- * Received a **Microsoft certificate** as a **Power BI Data Analyst Associate**.
