SKILLS

Languages: Java, JavaScript, Python, C/C++, Bash, Pandas, SQL, Excel, R

Front-End: HTML, CSS, React.js, Bootstrap, EJS, Next.js, WordPress, Tailwind CSS

Back-End & Tools: Node.js, Express.js, MongoDB, PostgreSQL, MySQL, Git, Linux, Postman, Firebase, Supabase, Docker, AWS Basics

Other: Agile/Scrum, Test-Driven Development, API Design, REST/GraphQL, Data Analysis, Debugging, CI/CD Pipelines

WORK EXPERIENCE

Office Aide – Arizona State University

Aug 2025 – Present

- Provided clerical and front-desk support including scheduling, filing, and answering student inquiries.
- Assisted staff with data entry, document organization, and administrative tasks.
- Supported departmental events and handled communication with students and faculty.

Gold Guide – New Student Programs, ASU

Dec 2024 – Aug 2025

- Conducted weekly online and in-person sessions on academics, resources, and student life.
- Supported 150+ first-year students with onboarding, advising, and mentorship.
- Maintained student profiles and engagement reports using Salesforce and Excel.

SI Leader (Java Tutor) – Academic Success Network, ASU

Feb 2025 – May 2025

- Facilitated peer-led review sessions on Java OOP, recursion, and data structures.
- Designed worksheets, quizzes, and practice problems, boosting student exam scores by 12%.
- Collaborated with faculty to reinforce core concepts and identify struggling students.

ASU 101 Section Leader – Fulton Schools of Engineering, ASU

Aug 2024 – Dec 2024

- Delivered weekly lectures and coordinated classroom discussions with 40+ students.
- Graded assignments, provided detailed feedback, and tracked student academic progress.
- Organized peer activities and workshops on time management, research skills, and teamwork.

EDUCATION

Arizona State University, Tempe, AZ

Expected May 2027

B.S. in Computer Science; Dean's List

GPA: 4.23/4.00

Relevant Coursework: Data Structures, Algorithms, Databases, Software Engineering, Computer Networks, Operating Systems, Web Programming, Probability & Statistics

PROJECT WORK

- **Full Stack Dashboard Platform (2025):** MERN app deployed on Render with JWT authentication, bcrypt, protected routes, role-based access control, REST APIs, and MongoDB Atlas. UI built with React + Tailwind CSS including charts, tables, and responsive design.
- **Mini Twitter Clone (2025):** Designed REST APIs with Node.js/Express and MongoDB using MVC. Built responsive UI with Tailwind + EJS for SEO-friendly rendering. Implemented real-time updates with WebSockets.
- **Blogging Platform (2025):** Blogging system with Node.js/Express and MongoDB Atlas; JWT authentication, CRUD admin dashboard, and fully responsive UI. Featured search, filtering, and tagging system.
- **Portfolio Website (2024):** Built personal portfolio with Next.js, Tailwind CSS, and Vercel deployment. Added blog functionality, animations, and optimized SEO.
- **Data Analysis Project (2024):** Cleaned and analyzed 50k+ records using Pandas, NumPy, and Matplotlib. Produced visual dashboards highlighting business insights and predictive models.

ACTIVITIES & LEADERSHIP

- **SODA Club Member (ASU):** Attended weekly coding sessions and collaborated on open-source contributions.
- **Hackathon Participant:** Developed a smart task manager at HackArizona in under 24 hours with real-time sync and notifications.
- **Volunteering:** Provided weekly tutoring in Java and Python for high school students.
