Call Center Representative III Oct 2023 - Nov 2024

QTC Medical Services • San Antonio, TX

As a Call Center Representative III at QTC Medical Services in San Antonio, TX since October 2023, my role involves managing both inbound and outbound calls with home mortgage customers, resolving a range of customer issues, and recommending products based on customer needs. I also engage in generating reports, conducting data analysis, and decision-making, all providing accurate assistance. My responsibilities encompass ensuring excellent customer service, problem-solving, sales enhancement, and maintaining accurate customer records.

- Customer Communication: Manage inbound and outbound calls with home mortgage customers, ensuring exceptional customer service.
- Issue Resolution & Product Recommendation: Address customer issues ranging from routine to complex and recommend products based on their needs. Data Analysis & Reporting: Generate reports and conduct data analysis to support decision making processes.
- IT Support & Record Maintenance: Provide IT/online guidance and maintain accurate customer account records.

Customer Service Representative, Lead Dec 2020 - Sep 2023

Wells Fargo • San Antonio, TX

A dynamic role combining customer support and data analysis responsibilities. This role entails managing inbound and outbound communication with home mortgage clients, providing IT/online guidance, and handling routine to complex inquiries. It involves deep data analysis using SQL and Excel, developing data models and dashboards, and contributing to data-driven business improvements. The role also requires collaboration with cross-functional teams, ensuring quality in data governance processes, and providing exceptional customer service.

- Customer Interaction & Support: Manage inbound and outbound calls, resolve customer inquiries, and offer products based on needs. Provide IT/online assistance and maintain high standards of customer service.
- Data Analysis & Reporting: Conduct data analysis using SQL and Excel, develop data models and dashboards, and identify trends and patterns to support decision-making. Cross-functional collaboration: Work with various teams to gather requirements, deliver data-driven solutions, and assist in data governance and quality assurance processes. Project Management & Reporting: Generate reports, complete project work, and process customer transactions using Microsoft Excel and Office tools.

Certified Nursing Assistant May 2019 - Jul 2020

Victorian Estates Assisted Living • Yukon, Oklahoma

As a Certified Nursing Assistant and a Medication Administration Technician being aware at all times was a given. they both require a great deal of patience and understanding. Being able to take care of a resident meant changing bandages, assisting the resident, Distributing Medication to one or all within the facility, making their beds, and washing their belongings. Also answering calls and providing Customer care to families and assisting them.

- Resident Care: Attended to the physical and emotional needs of residents including regular monitoring of vital signs.
- Medication Administration: Administered medication to residents as prescribed.

- Wound Care and Hygiene: Assisted with wound care and maintained cleanliness by changing linens.
- Record Keeping: Documented resident care activities and assisted in lifting residents when necessary.
