Education

Bachelor of Science
Computer Science
University of North Georgia
Aug 2019-May 2023

Technical Skills

- Languages:** *Java, JavaScript, Python, SQL, HTML, CSS.*
- Frameworks:** *Spring Boot, React, ASP.NET*
- Databases:** *MySQL, T-SQL, MS SQL.*
- Tools:** *Git, GitHub, Eclipse, IntelliJ, VS Code, SMSS.*
- Concepts:** *OOP, REST APIs, Agile, SDLC.*
- Platforms:** *Windows, Linux*

Professional Skills

- Communication*
- Adaptability*
- Problem-Solving*
- Time Management*
- Critical Thinking*
- Detail-Oriented*
- Bilingual (English/Spanish)*

Professional Summary

Detail-oriented Software Developer with a B.S. in Computer Science and over 2 years of experience building and optimizing LIMS and lab automation systems. Proven ability to use problem-solving and critical thinking skills to design scalable backend solutions using Java, SQL, JavaScript, and ASP.NET. Capable of cross-functional collaboration and delivering measurable impact such as saving \$20K annually in development costs, cutting report generation time by 50%, and improving lab testing throughput by 30%. Eager to bring technical insight and an efficiency-focused mindset to a dynamic development team.

Work Experience

LIMS Development Manager / Lab Automation Specialist

Georgia Poultry Lab Network | Gainesville, GA | Nov 2023-May 2025

- Designed and deployed LIMS features using Java, SQL, ASP.NET, and HTML/CSS, reducing reliance on contractors and saving ~\$20K annually.
- Translated lab requirements into functional specifications and implemented custom solutions.
- Automated reporting with SQL scripts, reducing report generation time by 50%.
- Rapidly adapted to new lab automation tools, quickly building and maintaining liquid handling protocols that improved daily test capacity by 30%.
- Collaborated across teams to reduce process-related errors by 20%, effectively communicating with stakeholders to gather requirements and implement solutions.
- Automated repetitive lab tasks, saving approximately 10 hours weekly.
- Resolved 90%+ of backend issues within 24 hours by applying critical thinking to debug and identify root causes, ensuring minimal downtime.
- Managed dynamic data pipelines using programmatic control logic.

Lab Technician II

Georgia Poultry Lab Network | Gainesville, GA | Feb 2020-Nov 2023

- Maintained a 99% accuracy rate in LIMS data entry for over 3,000 samples monthly, demonstrating a strong detail-oriented approach that ensured data integrity.
- Generated detailed reports to support diagnostics, streamlining the process and reducing turnaround time from 2 days to 1, showcasing effective time management.
- Contributed to a 15% increase in lab throughput by assisting in workflow improvements and daily task execution.
- Mentored and trained new lab technicians on critical lab protocols and LIMS system usage, ensuring consistent procedural adherence and reducing onboarding time.
