

Abhilash Reddy Mungi | Business Data Analyst

TX, USA | +1 (940) 364-0392 | abilashmungi5566@gmail.com | [LinkedIn](#)

SUMMARY

Business Data Analyst with over 4 years of experience delivering actionable insights through data analysis, statistical modeling, and advanced reporting. Skilled in SQL, Python, R, Tableau, Power BI, and ETL pipelines to design, automate, and optimize data workflows. Experienced in predictive modeling, regression, time series forecasting, A/B testing, and data visualization to support strategic decision-making. Adept at translating complex datasets into executive-level dashboards and reports, improving operational efficiency, forecasting accuracy, and business outcomes. Strong expertise in cloud and big data technologies including AWS, Azure, Hadoop, and Spark, with a proven ability to collaborate with cross-functional teams to implement scalable analytics solutions.

TECHNICAL SKILLS

Data Analysis & Statistical Techniques: Data wrangling, regression, predictive modeling, time series forecasting, A/B testing, hypothesis testing, correlation & causal analysis for healthcare claims and financial transactions.

Data Visualization & Reporting: Tableau, Power BI, Advanced Excel (Pivot Tables, Macros, Power Query), KPI dashboards, report automation, and executive-level data storytelling for healthcare and finance metrics.

Data Management & Tools: SQL (Oracle, MySQL, PostgreSQL), Python (Pandas, NumPy, Matplotlib, Seaborn), R, ETL pipelines, data warehousing, data lakes, API integrations, Hadoop, Spark.

Business Intelligence & Strategy: Operational efficiency, process optimization, market/customer analytics, financial and revenue analysis, regulatory and compliance reporting, cross-functional collaboration.

Cloud & Big Data Technologies: AWS, Microsoft Azure, Google Cloud, Big Data tools (Hadoop, Spark), cloud-based data integration, and scalable pipelines.

Soft Skills: Problem-solving, critical thinking, effective communication, attention to detail, stakeholder management, translating complex data into actionable business insights.

PROFESSIONAL EXPERIENCE

Business Data Analyst | Tenet Healthcare | TX, USA Jan 2024 – Current

- Leveraged SQL and Python to analyze operational and clinical data, uncovering workflow inefficiencies and driving a 12% improvement in departmental process efficiency.
- Developed and maintained interactive dashboards in Tableau and Power BI, providing real-time insights into patient flow, reducing patient waiting times by 15%.
- Led predictive modeling initiatives using regression analysis and time series forecasting, improving accuracy of patient admissions forecasts and capacity planning.
- Partnered with cross-functional teams, translating business requirements into actionable analytical solutions that optimized resource allocation and reduced operational costs.
- Conducted A/B testing and statistical analyses on new policies and initiatives, contributing to a 5% increase in patient satisfaction scores.
- Performed comprehensive analysis of financial, operational, and clinical datasets, delivering actionable recommendations to senior leadership, influencing strategic decision-making.

Business Data Analyst | R financial | India Aug 2021 – Jul 2022

- Developed financial reports, incorporating statistical analysis and predictive models, which supported an increase in portfolio revenue by 18% within the first quarter.
- Streamlined data collection and preprocessing workflows using Python and SQL, reducing reporting time.
- Developed and automated dashboards and reports for senior management in Power BI, enabling timelier and data-driven decision-making, leading to a 10% improvement in investment strategy outcomes.
- Conducted correlation analysis on market trends and portfolio performance, identifying key investment opportunities that resulted in a 12% growth in the company's financial assets.
- Led data wrangling and integration projects, consolidating data from multiple sources, ensuring the completeness and accuracy of financial data for quarterly reports.

Business Data Analyst | Intex Technologies | India Jan 2020 – Aug 2021

- Conducted market and customer analytics, identifying actionable trends that boosted product sales during new launches.
- Built and deployed automated reporting systems using Excel, SQL, and Python, reducing report generation time by 40% and delivering near real-time insights.
- Performed A/B testing on customer engagement strategies, increasing customer retention by 15% within six months.
- Partnered with marketing & sales teams to optimize campaigns through predictive modeling, improving campaign response rates & ROI.
- Designed advanced Excel dashboards with Pivot Tables, Macros, and Power Query, streamlining data analysis and increasing team productivity.
- Analyzed operational and sales data to provide strategic recommendations for business growth and process improvements.

EDUCATION

Master of Science in Information Systems and Technology May 2024

University of North Texas, Denton, TX, USA

Bachelor of Business Administration Jul 2021

Osmania University, Hyderabad, Telangana, India
