

ADON S. CHOWDHURY

asc292@cornell.edu | 516-849-3050

EDUCATION

CORNELL UNIVERSITY, Ithaca, NY

May 2018

Bachelor of Science (BS) in *Statistics and Computational Biology*

Dyson Business Minor for Life Science Majors

PROFESSIONAL EXPERIENCE

NULIFE MED, Manchester, NH (remote)

July 2024– Present

Data Analyst - Finance & Healthcare Operations

- Automate and streamline claims reporting and accounts receivable, partnering with CFO, VP of Sales, VP of Operations leveraging Access, SQL, and Excel
- Design, build, and manage Access databases to centralize and clean disparate datasets across departments
- Build ETL pipelines and custom reporting tools to support strategic forecasting and performance monitoring
- Analyze healthcare claims data to identify trends, reduce manual workload, and ensure regulatory compliance

QUANT DATA, New York, NY (remote)

January 2021 - Present

Data Scientist - Freelance

- Develop SQL and Excel based models to convert trial users into paid subscribers, based on usage behavior and engagement metrics
- Configure Tableau dashboards and custom reports to analyze login frequency and retention trends increasing consumer base by 350% over 18 months
- Collaborate with the CTO to translate feedback and churn data into product improvements and feature prioritization
- Conduct behavioral analyses, segmenting the high value target population and providing the marketing function with the corresponding information to execute strategic decisions

MEDICAL CARE PC, Brooklyn, NY

Senior Financial Analyst - Billing & Claims Optimization

January 2023 – June 2024

Financial Analyst - Billing & Claims

August 2021 – June 2022

- Identified and recovered over \$100,000/month in revenue through deep claims analysis and payor behavior trends in underpaid claims
- Automated reporting systems using scripting and Excel logic, reducing reporting time by over 70%, transforming a historically manual process of paper claim reviews
- Led cross-functional projects using analytics to support KPIs in a regulated clinical billing environment

NYU LANGONE, New York, NY

June 2022 – December 2022

Senior Financial Analyst - Financial Planning & Analysis

- Conducted advanced data analytics using statistical modeling techniques to support the development of long-range hospital budgeting and forecasting
- Created predictive models to estimate daily volume and revenue, using seasonality and historical trends
- Analyzed revenue and expense patterns to inform executive decision making

FLATIRON SCHOOL (WEWORK), New York, NY

September 2019 – March 2020

Operations Associate

- Managed a \$200,000 corporate account, utilizing data analytics to optimize resource allocation to support students
- Provided regular reporting on performance and progress towards goals, utilizing data visualization tools to present data in an easily understandable format

INTEGRA MANAGED CARE, Lake Success, NY

August 2018 – September 2019

Enrollment Analyst

- Collaborated with leadership to resolve Medicaid and Medicare conflicts with analytics for informed decision making
- Oversaw daily enrollment for 24,000 members, utilizing data analytics to provide valuable insights
