EDUCATION

Masters in Computer Science
University of Wisconsin Milwaukee

May 2024

Bachelors in Computer Science
Jawaharlal Nehru Technological University

May 2021

SKILLS

- **Programming and Web Development:** Enterprise Java, Python, HTML, CSS, Bootstrap, React JS, Node.js
- **Database:** MongoDB, SQL (Procedural SQL), Neo4j
- **Business & Data Analysis:** SQL, Power BI, Azure DevOps
- **Cloud and Containerization:** Azure (Azure Cloud Services), Docker, AWS
- **Version Control and Project Management:** Git, Jira
- **Data Analysis and Visualization:** PowerBI, MS Excel, ETL (Extract, Transform, Load), Grafana, Kibana, Hadoop, Kafka
- **AI Basics:** OpenAI API, AI Chatbots, NLP Basics, Tensorflow, Pytorch, scikit-learn
- **ERP:** SAP S/4 HANA

EXPERIENCE

Software Engineer
Glenysys Technologies |Aurora, IL

Jun 2024 - Present

- Developed and maintained scalable web applications using Java, Spring Boot, and Angular, boosting efficiency by 30%.
- Designed and deployed containerized microservices with Docker and Kubernetes, enhancing resource utilization by 30%.
- Optimized SQL queries, views, and stored procedures in Oracle and PostgreSQL, improving database performance and supporting analytical reporting.
- Developed SQL queries and Power BI reports to provide real-time insights, supporting executive decision-making and improving reporting efficiency by 50%.
- Performed UAT and system testing, reducing post-deployment defects by 25%.
- Automated CI/CD pipelines for integration services using GitHub Actions and Azure DevOps, improving deployment efficiency.
- Automated ETL (Extract, Transform, Load) workflows with Python and SQL, cutting data processing time by 40%.
- Integrated RESTful APIs and SOAP services to enhance microservices communication, streamlining data flow by 30%.
- Managed project workflows using Jira and Microsoft Project, ensuring on-time deliverables and efficient task tracking.

IT Support

University of Wisconsin | Milwaukee, WI

Dec 2022 - Dec 2023

- Collaborated with faculty and IT teams to research and deploy new software solutions, improving system functionality.
- Managed Windows-based systems, including Active Directory administration, user provisioning, file system permissions, and security policies.
- Configured and automated user provisioning, role-based access control (RBAC), and policy enforcement in enterprise environments..
- Developed and maintained SQL scripts for data validation, reporting, and system integrity checks.
- Provided technical support for over 500+ users, diagnosing and resolving software, network, and system performance issues.
- Managed business applications including Active Directory, SQL databases, and enterprise software.
- Streamlined processes by implementing system configuration changes that improved efficiency and accuracy.

Full Stack Developer

Indian Servers | Hyderabad, India

May 2021 - June 2022

- Developed full-stack web applications using React JS and Node.js, reducing page load times by 25% and enhancing overall user experience.
- Built RESTful APIs using Express and integrated with MongoDB, improving data access speed by 30% and enabling real-time data synchronization.
- Executed responsive designs using HTML5, CSS3, and Bootstrap, increasing mobile traffic engagement by 40% and ensuring cross-browser compatibility.
- Optimized back-end services with Node.js and PostgreSQL, improving database query performance by 20% and reducing server response times.
- Developed CI/CD pipelines using Jenkins and Docker, reducing deployment time by 50% and enhancing delivery frequency by 35%.
- Collaborated in Agile development with a focus on Scrum, increasing sprint efficiency by 15% and contributing to timely project deliveries.
- Integrated third-party APIs, enhancing system functionality and adding new features, which boosted user engagement by 30%.

CERTIFICATIONS & ACHIEVEMENTS

- AWS Certified Developer Associate
- Google Data Analytics Professional
