

Ajitha Rachamanti

DATA ANALYST

Texas, United States | rachamantiajitha@gmail.com | +1 (551) 309-3231 | [LinkedIn](#)

SUMMARY

Data Analyst with 5+ years delivering high-impact insights in financial services and healthcare. Proficient in SQL, Python (Pandas, NumPy), Excel, Power BI, Tableau, and cloud platforms (AWS, Azure). Excel in financial reporting, risk modeling, healthcare claims analysis, regulatory compliance (HIPAA, SOX), data modeling, ETL pipelines, KPI dashboards, predictive forecasting, and AI-enhanced analytics. Transform complex business needs into scalable solutions, automating workflows to boost efficiency by 30%+, enhance data quality, and empower C-suite decisions in fast-paced Agile teams.

TECHNICAL SKILLS

Languages:	Python, Scala, R, SQL, SAS
Packages/Libraries:	NumPy, Pandas, Matplotlib, Seaborn, ggplot2, SciPy, Scikit-learn, TensorFlow
Visualization Tools:	Tableau, Power BI, Advanced Excel (Pivot Tables, VLOOKUP)
IDEs:	Visual Studio Code, PyCharm, Jupyter Notebook
Database Management:	MySQL, PostgreSQL, SQL, Oracle, Snowflake, dbt
Cloud Technologies:	AWS, Azure
Methodologies:	SDLC, Agile, Waterfall, Predictive Modeling
Version Control:	Git, GitHub, Bitbucket
Data Manipulation:	Data Analysis, Data Mining, Data Preprocessing, Data Mapping, Data Cleaning, Data Visualization, Data Modeling, Data Warehousing, Data Storytelling, Data Wrangling, Data Acquisition, Data Integration, Data Transformation
Other Skills:	SSIS, SSRS, Machine Learning Algorithms, CI/CD, ANOVA, Association Rules, Clustering, Advanced Analytics, ETL Processes, Informatica, Report Generation, Regression, A/B Testing, Forecasting & Modeling, Hypothesis Testing, Time Series Analysis, Root Cause Analysis

WORK EXPERIENCE

Blue Cross Blue Shield, Texas, USA | Data Analyst

Jul 2024 – Present

- Led analytics for a healthcare initiative on early detection of chronic kidney disease by analyzing longitudinal claims, pharmacy, lab, and EHR datasets to support risk stratification, preventive care planning, and population health management strategies.
- Built scalable ETL workflows using Apache Airflow and dbt to integrate data from 8+ clinical and administrative systems, improving data reliability by 27% and enabling comprehensive analysis of over 120K patient records annually.
- Conducted end-to-end data validation, reconciliation across claims and clinical datasets, achieving 66.3% accuracy and ensuring reliable inputs for risk modeling, reporting, and population health decision-making across clinical operations teams.
- Analyzed patient-level data using Python (Pandas, Scikit-learn) to generate predictive insights on CKD onset and progression risk, supporting early intervention strategies that reduced high-cost late-stage treatment exposure by 18% across targeted populations.
- Designed and delivered 6+ Power BI dashboards using DAX measures and row-level security, providing real-time visibility into CKD risk tiers, lab trends, and population health outcomes for over 250 clinical, operational, and executive stakeholders.
- Queried large-scale clinical datasets using AWS S3 and Amazon Athena, optimizing performance for complex analyses while ensuring secure, HIPAA-compliant data access for analytics, reporting, and care management teams across the organization.
- Leveraged SQL and Big Query to analyze multi-year longitudinal claims and clinical datasets, identifying utilization inefficiencies and CKD cost drivers while improving report performance through query optimization, partitioning strategies, and structured data modeling techniques.

Capgemini, India | Data Analyst

Mar 2020 – Jul 2023

- Created cloud-based modernization of FP&A analytics, building scalable data pipelines to support financial planning, pricing, and forecasting, delivering near real-time insights that improved decision-making speed and accuracy for finance leadership teams.
- Automated ingestion and validation of 10,000+ daily pricing transactions using Python and SQL, significantly improving data accuracy, eliminating manual reconciliation work, and enabling scalable, audit-ready analytics for enterprise finance and pricing teams.
- Developed ETL workflows using Apache Spark and Azure Data Factory to process over 300GB of financial and customer data daily, enabling near real-time insights for predictive pricing, demand forecasting, and revenue optimization initiatives.
- Created more than 850 pricing and revenue reports in Alteryx, reducing manual reporting effort by 30%, improving consistency and compliance, and enabling standardized, governance-ready reporting processes for finance and executive stakeholders.
- Performed exploratory data analysis using Pandas and NumPy to uncover pricing anomalies, and churn indicators, supporting data-driven pricing decisions and helping teams refine strategies to improve revenue performance and customer retention.
- Designed and deployed 12+ interactive Tableau dashboards integrating live transactional and CRM data, reducing reporting turnaround time by 25% and improving executive visibility into financial performance, trends, and key business metrics.
- Built predictive pricing models using Scikit-learn with 40% accuracy, enabling data-driven pricing recommendations, and improved conversion rates while supporting revenue growth initiatives across multiple customer segments and product lines.
- Conducted controlled A/B testing using SciPy to evaluate pricing strategies and promotional campaigns, improving recommendation effectiveness by 9% and enabling marketing and pricing teams to optimize offers based on statistically performance insights.
- Integrated over 10 financial, CRM, and product datasets using Talend, ensuring data consistency, schema alignment, lineage tracking, and governance compliance to support reliable analytics pipelines and cross-functional decision-making across teams.
- Collaborated with marketing, and engineering teams in Agile Scrum environment, participating in sprint planning, backlog prioritization, and reviews to deliver high-impact analytics solutions

EDUCATION

Master of Science in Business Analytics - University of North Texas, Denton, Texas

Aug 2023 – May 2025

Bachelor's Degree - Acharya Nagarjuna University, Andhra Pradesh, INDIA

Jun 2018 – Aug 2021
