

ALAN JOSEPH

Software Developer / Full Stack Developer / Java Developer

+1 (984) 789-2735 | alanjoseph2994@gmail.com | linkedin.com | Wendell, NC 27591

Professional Summary

Detail-oriented and versatile **Software Developer** with over **4 years of experience** in full-stack web development, microservices architecture, and database design. Strong expertise in **Java, PHP, and Python**, with hands-on experience building scalable applications using **Spring Boot, Laravel, and Django**. Proficient in front-end and back-end development, RESTful APIs, and modern databases. Strong problem-solving skills with experience working in Agile and Waterfall environments.

Professional Experience

Remodel Associate

Jan 2026 – Present

Walmart Supercenter, Zebulon, NC, USA

- Delivered high-quality customer service by identifying customer needs, assisting with purchasing decisions, resolving concerns, and promoting products and services while maintaining a safe shopping environment.
- Supported store remodeling initiatives by dismantling and installing fixtures, stocking merchandise, setting up product displays, updating signage, and assisting with Point of Sale (POS) systems.
- Collaborated with offsite fixture warehouse teams to process shelving, gondolas, and other fixtures, including handling returns for incorrect or reusable shipments.
- Partnered with store operations associates to ensure compliance with operational processes such as Top Stock, Customer Availability Program (CAP), and aisle location standards.
- Educated store associates on remodel processes, including project phasing plans, timelines, and overall project status.
- Executed remodeling workflows by delegating tasks, managing timelines, monitoring progress, and ensuring project outcomes met established expectations.
- Maintained compliance with company policies, procedures, and ethical standards, utilizing the Open-Door Policy to support effective communication and problem resolution.
- Completed work assignments efficiently by prioritizing tasks, collaborating with managers and team members, communicating progress, and adapting to changes and feedback.

Cashier (Part-Time)

May 2025 – Present

Dollar Tree, Knightdale, NC, USA

- Handled POS transactions efficiently while ensuring high standards of customer service.
- Maintained accurate cash drawers and adhered to store operational policies.
- Assisted with shelf restocking and maintaining clean, organized store areas.
- Resolved customer inquiries and supported a positive shopping experience.

Java Developer

Oct 2023 – Oct 2024

Sumskar System Private Limited

- Developed scalable web applications using **Spring Boot** and MVC architecture.
- Designed and built **RESTful APIs** for backend services and system integrations.
- Implemented backend logic using JDBC, multithreading, collections, and transaction management.
- Utilised **Hibernate ORM and JPA** for efficient database interactions.
- Built responsive user interfaces using HTML, CSS, Bootstrap, and JavaScript.
- Applied jQuery for dynamic form validation and client-side event handling.
- Demonstrated strong expertise in **Java, Spring Boot, React.js, Node.js, and Next.js**.
- Worked with **Git version control**, CI/CD pipelines, and automated deployment workflows.

Software Engineer

Apr 2022 – Aug 2023

Quest Innovative Solutions, Ernakulam, Kerala, India

- Designed, developed, and tested scalable software features and applications.
- Identified, analysed, and resolved software defects and performance bottlenecks.
- Participated in system architecture discussions and proposed robust technical solutions.
- Authored and maintained comprehensive technical documentation.
- Performed code reviews to ensure code quality, security, and adherence to coding standards.
- Collaborated cross-functionally with stakeholders to align software deliverables with business requirements.

Full Stack Development Intern

Aug 2021 – Mar 2022

Camerinfools Pvt. Ltd., Kochi, Kerala, India

- Contributed to the design, development, and testing of full-stack web applications using Java, Spring Boot, and RESTful services.
- Built responsive and user-friendly interfaces using HTML, CSS, JavaScript, and modern frontend frameworks.
- Implemented server-side functionality with Spring MVC, Spring Data JPA, and Hibernate to support efficient data processing.
- Integrated frontend components with backend APIs and relational databases such as MySQL and PostgreSQL.
- Applied object-oriented programming principles and MVC architecture to develop clean, modular, and maintainable code.
- Collaborated with senior developers in an Agile/Scrum environment, participating in stand-ups and peer code reviews.
- Identified, debugged, and resolved application issues to improve performance, stability, and reliability.
- Utilized Git and GitHub for version control, source code management, and team collaboration.
- Developed and executed unit tests using JUnit and Mockito to ensure code quality and application reliability.

PHP Developer

Aug 2018 – Dec 2020

I-Band Technologies, Ernakulam, Kerala, India

- Developed, enhanced, and supported dynamic web applications using PHP, HTML, CSS, and JavaScript.
- Built scalable backend solutions using Core PHP and frameworks including Laravel and CodeIgniter.
- Designed and optimised MySQL databases, creating complex queries, joins, and stored procedures.
- Implemented RESTful APIs to enable seamless communication between web, mobile, and backend systems.
- Integrated third-party services such as payment gateways, authentication systems, and external APIs.
- Applied strong security practices including input validation, data encryption, and SQL injection prevention.
- Improved application performance through code refactoring, optimisation, and efficient database design.
- Utilised Git for version control and actively participated in peer code reviews.
- Conducted debugging, testing, deployment, and maintenance on Apache and Nginx servers.
- Followed MVC architecture and industry-standard coding practices throughout development cycles.
- Provided ongoing application support including bug fixes, feature enhancements, and system upgrades.
- Collaborated with UI/UX designers, frontend developers, QA teams, and stakeholders to deliver high-quality solutions.

Technical Skills

- **Programming Languages:** Java, Python, PHP
- **Frameworks:** Spring Core, Spring MVC, Spring Boot, Hibernate, Laravel, CodeIgniter, Django
- **Web Technologies:** HTML5, CSS3, Bootstrap, JavaScript, AJAX, XML, jQuery
- **Databases:** MySQL, SQL Server, MongoDB (NoSQL)
- **JavaScript Frameworks:** React.js, Angular 2/4, Node.js
- **Tools & Version Control:** Git, GitHub, GitLab
- **Methodologies:** Agile (Scrum), Waterfall

Education

Master of Computer Applications (MCA)

2015 – 2017

Santhigiri College, Vazhithala, Kerala, India
Mahatma Gandhi University

Bachelor of Computer Applications (BCA)

2012 – 2015

Al Azhar College, Thodupuzha, Kerala, India
Mahatma Gandhi University

Certifications

- MuleSoft Certified Developer – Level 1
- Diploma in Data Science – ExpertzLab Technologies, Kochi
- Microsoft Azure Certification
