

ALEXANDER MILLER

PROFESSIONAL SUMMARY

Statistician with expertise in Bayesian modeling, data analysis, and project management, developed through work at Los Alamos National Laboratory and Auburn University’s RFID Lab. Proficient in R and Python, with experience in experimental design, time series forecasting, and classification. Collaborative and proactive, focused on using statistical insight to solve complex problems and drive data-informed decisions.

EMPLOYMENT HISTORY

GRA STATISTICIAN <i>Auburn University RFID Lab</i>	Aug 2023 - Present <i>Auburn, AL</i>
◆ Analyze datasets to enhance project success, collaborating for insightful experiments ◆ Design projects to support data-driven decisions, achieving measurable results ◆ Developing understanding of time-series data for prediction of count data and classification of categorical data	
PROJECT MANAGER <i>Auburn University RFID Lab</i>	Oct 2022 - Aug 2023 <i>Auburn, AL</i>
◆ Improved team efficiency, leading to an enhanced workload capacity ◆ Led supplier compliance for Walmart’s 2023 general merchandise RFID rollout ◆ Develop and initiate new projects, demonstrating a proactive approach to project identification and implementation	
STATISTICIAN <i>Los Alamos National Laboratory</i>	May 2024 - Aug 2024 <i>Los Alamos, NM</i>
◆ Collaborated on interdisciplinary projects, enhancing research with statistical analysis ◆ Gained valuable experience in the Bayesian workflow through experimental design, exploratory data analysis to better understand the data generating process, model development and model evaluation ◆ Specific methods used include Bayesian inference, Gaussian Processes, and Random Forests	

EDUCATION

BACHELOR OF ARTS IN MATHEMATICS <i>State University of New York (SUNY) at Potsdam</i>	May 2022 <i>Potsdam, NY</i>
MASTER OF ARTS IN MATHEMATICS <i>State University of New York (SUNY) at Potsdam</i>	May 2022 <i>Potsdam, NY</i>
MASTER OF SCIENCE IN STATISTICS <i>Auburn University</i>	August 2025 <i>Auburn, AL</i>

SKILLS

Languages & Platforms – R, Stan, LaTeX, Microsoft Office, Python, PyMC, scikit-learn, PyTorch, SAS, SQL, Tableau, JMP
Methods - Bayesian statistics, Time series analysis, computational statistics, data visualization, machine learning, Project management

ADDITIONAL INFORMATION

LEADERSHIP EXPERIENCE: ALEC Team Lead @ Auburn RFID Lab (October '22-August '23); Auburn High School Junior Varsity Head Coach (January '23-present); Potsdam Men’s Lacrosse Captain (September '21-May '22); NCAA Student Athlete (2018-2022)
