EDUCATION & PROFESSIONAL CERTIFICATES

Northwestern School of Professional Studies, Evanston, Illinois **Aug 2023 – Mar 2025**

Master of Science in Data Science

- Coursework: Applied statistics with R, database systems, practical machine learning, natural language processing, deep learning, data governance, capstone project

UCLA Extension, Los Angeles, California **Jan 2023 – Mar 2023**

Data Science Certification

- Coursework: Python, R, SQL, Tableau, supervised and unsupervised machine learning models, exploratory data analysis, introduction to deep learning, capstone project

UCLA College of Letters and Sciences, Los Angeles, California **Sep 2017 – Jun 2021**

Bachelor of Science in Psychobiology, Minor in Disability Studies

EXPERIENCE

Inari Medical **Jun 2024 – Sep 2024**

Clinical Insights Intern

- Analyzed real-world demographic, diagnostic, procedural, and outcomes data from the PINC AI database using SQL, Python, and Power BI to inform targeted clinical trial feasibility in a specific subgroup of deep vein thrombosis patients
- Designed interactive exploratory Power BI dashboards to visualize clinical trial diversity within the PINC AI database in anticipation of evolving FDA diversity requirements

Prologis **Jun 2023 – Aug 2023**

IT Data & Analytics Intern

- Developed an automated SQL notification system for the Data Quality initiative to improve data completeness for accounts receivable late payments
- Collaborated with the leasing team to build an automated SQL-based reporting solution and Tableau dashboard to streamline the tracking of Tenant Improvement fees

Primary Care Sports Medicine **Aug 2021 – Aug 2022**

Medical Scribe

- Worked closely with physicians and physician assistants to accurately document patient encounters using the NextGen EHR system, gaining a strong understanding of structured clinical data and medical terminology
- Interacted with patients to assist with scheduling, setting up referrals, and procedure preparation

UCLA Recreation – Sunset Canyon Recreation Center **Jul 2018 – Jun 2021**

Front Desk Clerk

- Managed membership sales, summer camp registration, and private lesson bookings using Fusion Recreation Management Software to ensure accurate data entry
- Organized equipment checkout and tennis reservation logs to support usage tracking and facility planning

SKILLS

Programming & Analytics: Python, RStudio, SQL, Power BI, Tableau

Databases & Cloud: Microsoft SQL Server, PostgreSQL, MySQL, Snowflake, DBeaver, Denodo, data.world, AWS, Google Cloud Platform

Tools & Platforms: GitHub (version control), Dataiku, Jira, Asana, Confluence, Microsoft Office Suite, NextGen EHR/EMR

PROJECTS

Pulmonary Embolism Risk Prediction | *Google BigQuery, Python, Power BI*

- Queried the MIMIC-IV database to identify deep vein thrombosis patients and built random forest, xgboost, and logistic regression machine learning models using class imbalance techniques including SMOTE and random undersampling to predict pulmonary embolism risk and identify key predictors

Stroke Risk Factors Across CA Hospitals | *RStudio, Python*

- Cleaned, analyzed, and modeled California hospital data from 2011-2015 on risk adjusted 30-day readmissions and mortality rates for ischemic stroke patients, building and comparing linear regression, tree regression, random forest, and xgboost models to identify key predictors of risk-adjusted outcomes
