

Alima Conde

Charlotte, NC | (904) 570-0604 | alimacnde@gmail.com | linkedin.com/in/alimaconde

Detail-oriented Data Analyst with 3 years of experience in SQL, data visualization, and compliance reporting. Eager to leverage expertise in actionable insights, product growth analytics, and dynamic SaaS environments. Passionate about adapting quickly to new tools like BigQuery, Looker Studio, and dbt.

EDUCATION

University of North Carolina at Charlotte — Bachelor of Science in Computer Science

Concentration: Cybersecurity | GPA: 3.45/4.0 | Chancellor's List (Fall 2024)

Graduating May 2025

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL (MySQL, PostgreSQL), C++

Data Analysis & Visualization: Power BI, Excel (Pivot Tables, VLOOKUP), SQL Queries, Data Cleaning, Data Modeling

Data Tools Familiarity: BigQuery, Looker Studio, dbt (learning), Mixpanel (user engagement analytics)

Software & Tools: Git, Power BI, Microsoft Office (Excel, Word, PowerPoint)

Web Development: HTML, CSS, JavaScript (basic front-end development)

Database Management: SQL Database Design, Data Extraction (ETL basics), Data Presentation

PROFESSIONAL EXPERIENCE

Pepco Exelon — IT Compliance Intern

Washington, DC | June 2022 – December 2024

- Built and optimized SQL queries and Power BI dashboards for real-time tracking of compliance metrics, improving issue identification and resolution time by 20%.
- Conducted internal audits and risk assessments, ensuring alignment with NERC CIP cybersecurity standards.
- Developed front-end enhancements (HTML, CSS, JavaScript) to streamline internal compliance tools and improve user experience.
- Collaborated cross-functionally with IT security and risk management teams to analyze system user behaviors, providing insights that influenced security policy updates.

TECHNICAL PROJECTS

Daily Habit Logger — Console-Based Application | November 2024

- Designed a habit-tracking app using Java and SQL for persistent data storage and trend analysis.
- Integrated CSV export and data visualization elements, leading to a 30% boost in user engagement during testing phases.
- Applied dynamic menu systems to enhance user navigation and experience within the command-line interface.

LEADERSHIP AND INVOLVEMENT

Women in CyberSecurity (WiCyS) — Member (Sept 2024 – Present)

- Engaged in cybersecurity and data privacy discussions critical for risk-aware data analytics practices.

Exelon Girls STEM Leadership Academy — Member (Aug 2020 – Present)

- Participated in STEM leadership panels, introduced Exelon CEO at events, and advocated for data-driven innovation in STEM fields.

AWARDS AND SCHOLARSHIPS

- Exelon STEM Academy Scholarship (Full-Ride Recipient), CCDI Build Our Future Scholarship (Innovation in Construction and Design), UNCC James A. Turner Jr. Family Scholarship, Foundation for the Carolinas Scholar, Women In CyberSecurity Scholar

CERTIFICATIONS

- NERC CIP Compliance Certification
- Exelon Cyber Security Phishing Awareness Training
